Time: 11:30 am-12:00 pm

2. BRIEF PROFILE OF RESOURCE PERSONS

1) Mr. Sampath Kumar

Mr. Sampath Kumar is an accomplished XR Developer and tech innovator based in Bengaluru, Karnataka, India. With a strong foundation in Micro-Electro-Mechanical Systems (MS) from Coventry University and a Bachelor's in Mechanical Engineering from Kuvempu University, Sampath blends technical expertise with creative flair. Currently, Sampath is steering groundbreaking initiatives as a self-employed XR Developer at BodyClone, where he specializes in XR Products, emphasizing Unity Engine, C#, Blender, and MakeHuman. His entrepreneurial spirit shines through his ventures such as HiTime Plus (OPC) Private Limited, JCI-XR India, and BluePlan, showcasing expertise in NPD, XR Solutions for medical devices, and UX/UI design. Sampath's notable achievements include being part of the shortlist grant-winning team at JCI-XR, securing USD 500 in the healthcare sector by META and IIT Delhi, FITT, during the nationwide grand challenge. Sampath Kumar is recognized for his proficiency in Unity Game Engine, C# Programming, Makehuman, Blender, and Gameplay design. Sampath also holds a patent for the "Femoral resection alignment tool."

2) Mr. Mohteshim Abrar

Mr. Mohteshim Abrar is an enthusiastic VR Developer currently making significant contributions to innovative projects at Evolve XR Tech. With a robust educational background in Mechanical Engineering from NIE Institute of Technology, Mysore, Mohteshim has honed a distinctive skill set that seamlessly integrates technical prowess with inventive problem-solving. In the span of 11 months at Evolve XR Tech, Mohteshim has immersed himself in the dynamic field of Virtual Reality development. Proficient in Unity and AutoCAD, he brings ideas to life, thriving in the hybrid work environment and adding a creative touch to the tech-driven landscape of Mysore, Karnataka, India. Mohteshim recently achieved a notable milestone by acquiring the Python 101 in Data Science certification from Cognitive Class, showcasing a dedicated commitment to continuous learning and staying abreast of technological advancements. Beyond the realms of code and design, Mohteshim is motivated by a vision to contribute meaningfully to organizational success while continually expanding his knowledge base. He welcomes connections for insightful discussions, collaboration opportunities, or the exchange of experiences in the dynamic world of VR development.

4. BRIEF REPORT ON THE PROGRAM

On 15th March 2024, a seminar titled "Unleashing the Power of Virtual Reality" was delivered by Mr. Sampath at Sambhram Institute of Technology. The seminar aimed to explore the transformative potential of virtual reality (VR) technology and its impact across various industries. Mr. Sampath, an expert in VR technology, began the seminar by providing a historical overview of virtual reality, tracing its evolution from early experiments to the present day. He highlighted the key technological advancements that have propelled VR into the mainstream, making it more accessible and compelling than ever before. During the seminar, Mr. Sampath discussed the diverse applications of virtual reality across industries such as gaming, education, healthcare, architecture, and tourism. He showcased past examples of how VR has been used to revolutionize these fields, offering immersive experiences that enhance learning, training, and entertainment. In his presentation, Mr. Sampath also addressed the challenges and opportunities associated with virtual reality technology. He acknowledged past hurdles such as high costs and technical limitations but emphasized the vast potential for innovation and growth in the VR industry. Throughout the seminar, Mr. Sampath shared past case studies and success stories of organizations leveraging virtual reality to achieve their goals. He highlighted past examples of VR applications that have yielded tangible benefits, from improving productivity and efficiency to enhancing customer engagement and satisfaction. Following his presentation, Mr. Sampath engaged the audience in a lively Q&A session, during which attendees had the opportunity to ask questions and share their thoughts on virtual reality technology. The session provided valuable insights and perspectives on the challenges and opportunities of integrating VR into various aspects of business and society. After the seminar students were given the unique opportunity to immerse themselves in the world of virtual reality firsthand. Following the presentation, a designated area was set up where students could try out VR headsets and experience the technology for themselves. In this experiential session, students were provided with various VR headsets, each offering a different level of immersion and interaction. They were guided by experienced instructors who helped them navigate through different VR environments and applications. Students had the chance to explore a wide range of virtual experiences, from thrilling gaming simulations to educational modules and immersive storytelling environments. They could interact with virtual objects, navigate through virtual spaces, and even collaborate with their peers in virtual settings. The hands-on experience allowed students to understand the capabilities and limitations of VR technology in a practical way. They could appreciate the depth of immersion and engagement that VR offers, as well as gain insights into the potential applications of VR across different industries. Moreover, this interactive session sparked discussions among students about the future of VR and its implications for various fields, including education, healthcare, entertainment, and beyond. Students exchanged ideas, shared their experiences, and brainstormed potential use cases for VR technology in their future careers. Overall, the opportunity to use VR headsets and explore virtual environments firsthand added an exciting and memorable dimension to the seminar. It not only reinforced the concepts discussed during the presentation but also inspired students to further explore the possibilities of virtual reality in their academic and professional pursuits. In conclusion, the seminar on "Unleashing

the Power of Virtual Reality" delivered by Mr. Sampath provided a comprehensive overview of the past, present, and future of VR technology. Attendees left the seminar with a deeper understanding of the transformative potential of VR and a renewed enthusiasm for exploring its applications in their respective fields.

5. FEEDBACK BY THE PARTICIPANTS

Feedback for the session " Unleash the power of Virtual Reality" held on 15-mar-2019

Department / Branch

34 responses

How well did the talk explain the core concepts of Virtual Reality(VR) ?

34 responses

Were the technical aspects of VR presented Clearly and Understandably ?

34 responses

Did the speaker provide real-world examples of VR applications in engineering fields ?

34 responses

Did the talk give you a good understanding of the potential VR in Engineering?

34 responses

How engaging and interesting was the speaker's presentation ?

34 responses

Was the pace of the talk appropriate?

34 responses

Has this event increased your interest in VR ?

34 responses

What did you like the most during the session ?

(Suggestions/ remarks)

34 responses

No
I experienced VR so I feel very well
Teacher is good about VR
Teachings was good
Everything
VR experience
I thank the session to build more interest on VR For me by presenting info well. No remarks from me
It was a good session for all of my friends and to me
I like everything in the section

Feedback form for those students who used the VR-Headset during "Unleash the power of VR session on 15-03-2019"

Department Branch

22 responses

How Realistic and immersive was the virtual experience within the VR environment ?

22 responses

Were the controls intuitive and easy to use within the VR Environment ?

22 responses

Did the VR experience feel engaging and interactive ?

22 responses

Did the VR Experience meet your expectations?

22 responses

Were the instructions for the using of VR Headset clear and easy to follow ?

22 responses

How likely are your to recommend using a VR headset for other engineering students ?

22 responses

Share your experience of using the VR Headset.

22 responses

Good

Good

Nice 😊

Nice

New experience feels good

Its a good experience using VR

Easy to learn

It's fun to use

The experience was amazing and realistic

3. BRIEF REPORT ON THE PROGRAM

On January 24th, 2024, Sambhram Institute of Technology hosted a vibrant celebration in observance of World Religion Day. The event aimed to foster understanding, respect, and harmony among individuals from diverse religious backgrounds. The gathering provided a platform for students and faculty members to exchange insights, share experiences, and celebrate the rich tapestry of global religious traditions. The ceremony commenced with a

warm welcome address by Dr. Sanjeetha R, the Head of the Department of Cyber Security (CSE) and the Head of the Equal Opportunity Cell. Dr. Sanjeetha set the tone for the event by emphasizing the importance of embracing diversity and promoting inclusivity in today's interconnected world. Following the welcome address, Dr. Sreerangaraju, Dean of Academics, delivered an enlightening overview of the significance of World Religion Day. He underscored the pivotal role of religious tolerance and interfaith dialogue in fostering peace, mutual understanding, and social cohesion. Dr. Sreerangaraju's remarks served as a poignant reminder of the shared values and aspirations that unite humanity across religious divides. Dr. Ravishankar C V, the Head of the Department of Electronics and Communication Engineering (ECE), then took the stage to delve into the theme of harmony among different religions. Drawing upon philosophical insights and real-world examples, Dr. Ravishankar eloquently articulated the importance of embracing diversity as a source of strength and enrichment for society. His discourse resonated with the audience, inspiring reflection and dialogue on the principles of tolerance, empathy, and coexistence. The highlight of the event was the participation of students from various branches, who eagerly shared insights into different religious traditions. Through presentations, performances, and personal anecdotes, students provided illuminating glimpses into the beliefs, rituals, and cultural practices associated with their respective faiths. From Hinduism and Islam to Christianity and Buddhism, the diverse array of perspectives showcased the beauty and complexity of religious pluralism. In conclusion, the World Religion Day celebration at Sambhram Institute of Technology served as a poignant reminder of the shared humanity that transcends religious boundaries. By fostering dialogue, understanding, and respect, the event embodied the spirit of unity in diversity and reaffirmed the institute's commitment to promoting a culture of inclusivity and harmony.

4. SPEECH ON DIFFERENT RELIGIONS BY STUDENTS

On this auspicious occasion of World Religion Day, I am honored to speak about the rich tapestry of Hinduism, a vibrant and ancient tradition that has woven itself into the fabric of our daily lives, shaping our culture, values, and heritage for millennia. Hinduism is one of the world's oldest religions and is the predominant religion in India and Nepal. It is a complex and diverse religious and cultural tradition that encompasses a wide range of beliefs and practices. Hinduism has no single founder or scripture and is characterized by a vast body of sacred texts, rituals, and philosophies. Key concepts in Hinduism include dharma (righteous duty), karma (the law of cause and effect), samsara (the cycle of birth, death, and rebirth), and moksha (liberation from the cycle of rebirth). Hinduism recognizes a diverse pantheon of deities, with the three principal gods known as the Trimurti: Brahma (the creator), Vishnu (the preserver), and Shiva (the destroyer).

परित्राणायसाधूनांविनाशायचदुष्कृताम् ।

धर्मसंस्थापनार्थायसम्भवामियुगेयुगे ॥ 8॥

“For the protection of the good, for the destruction of the wicked, and for establishing Dharma, I take birth in every age.” Says lord Vishnu. At the heart of Hinduism lies the

concept of Sanatana Dharma, often referred to as the eternal or universal law. It is a guiding principle that transcends time and space, providing a moral and spiritual compass for individuals to navigate the complexities of life. Sanatana Dharma emphasizes the interconnectedness of all living beings and encourages a harmonious coexistence with nature. This ancient tradition, with roots dating back thousands of years, plays a vital role in our daily lives. Its teachings are embedded in our rituals, festivals, and customs, fostering a sense of unity and spirituality. The diversity within Hinduism allows for a multitude of interpretations and practices, making it a dynamic and inclusive faith that accommodates a wide range of beliefs and perspectives. Hindutva, an ideology rooted in the cultural and historical essence of Hinduism, seeks to preserve and promote the heritage of the Hindu community. It emphasizes the idea of Hinduness and the cultural continuity of the Indian civilization. While Hindutva has been a subject of debate, it is essential to acknowledge its role in preserving the cultural identity of millions who identify with the Hindu way of life. Hinduism celebrates a multitude of festivals that play a crucial role in fostering unity and harmony among people of different faiths in India. Diwali, the Festival of Lights, signifies the triumph of good over evil and is marked by the lighting of lamps, symbolizing the dispelling of darkness and the advent of positivity. Holi, the festival of colors, is a vibrant celebration promoting joy and inclusivity, breaking down barriers of caste and creed as people come together to play with colored powders. Navaratri, a nine-night festival dedicated to the goddess Durga, unites communities through music, dance, and religious observances. These festivals offer shared moments of joy, reflection, and cultural exchange, fostering understanding and respect among people of diverse backgrounds. The spirit of communal celebration during these festivals often transcends religious boundaries, creating a sense of shared heritage and reinforcing the ethos of unity in diversity. The Vedas, ancient Hindu scriptures, offer a diverse range of knowledge, including astronomy and mathematics, influencing scientific discoveries. Puranas, filled with mythological narratives, serve as repositories of valuable knowledge, conveying moral lessons and documenting historical and scientific insights. Upanishads, philosophical texts, lay the foundation for contemplation and introspection, promoting a holistic approach to well-being. These teachings have influenced modern practices like yoga and meditation, contributing to physical and mental health. In recent times, scholars and scientists around the world have increasingly recognized the scientific relevance of Vedic knowledge. Concepts like the interconnectedness of all living things, the cyclical nature of time, and the importance of balance and harmony have resonated with contemporary scientific theories and practices. As we celebrate the wisdom embedded in our scriptures, it is crucial to understand that the ancient sages were not only spiritual visionaries but also pioneers of scientific thought. The timeless nature of these texts underscores their relevance in today's world, inspiring scientists, philosophers, and seekers alike to explore the intricate tapestry of existence. In conclusion, as we celebrate World Religion Day, let us appreciate the profound impact of Hinduism on our lives, recognizing its timeless principles, cultural richness, and the collective resilience of the Hindu community. By understanding and respecting the diversity within Hinduism, we contribute to a more inclusive and harmonious global society.

ii) Speech by Heena Ahmed of 7th sem CSE - Islam

Islam is derived from the 2 root words of Arabic Al-Silm which means submission and Al-Salaam meaning peace. Together the word Islaam means Complete submission to Allah and the other literal meaning of Islam is also Peace. The one who practises Islaam is known as a Muslim. There are 5 pillars in Islaam:

- 1) SHAHADAH: The declaration of Faith.
- 2) SALAH: also called NAMAAZ Obligatory praying 5 times a day
- 3) SAWM: also called ROZA, Fasting during the month of RAMadan
- 4) ZAKAT: Giving money as charity to those in need
- 5) HAJJ: Pilgrimage to Mecca.

EVIDENCE: The QURA'AN mentions in chapter 24 verse 56 (An-Nisaa)

٥٦ تَرْحَمُونَ لَعَلَّكُمْ الرَّسُولَ وَأَطِيعُوا أَلْرَّكُوَّةَ وَءَاتُوا أَلصَّلُوَّةَ أَقِيْمُوا

And establish Salah and pay Zakah and obey the messenger so that you may be favored with mercy. There are few fundamental Beliefs in Islaam which is known as EMAAN. Belief in oneness of ALLAH, Belief in ANGLES of Allah, Belief in sacred Revealed books: Torat, Zaboor, Injeel and The Holy Quraan. Belief on Day of Judgement/Resurrection: qiyamah. Belief in Prophethood: Muslims believe that prophets are messengers of Allah starting from Adam, Noah, Abraham, Moses, Jacob, Joseph, Jesus and finally Muhammed is believed as the last prophet. Belief in Hereafter :life after death granted to one, that is either Heaven(Jannah) or Hell(Jahannum)

EVIDENCE:

Iman-e-Mufassal (6 Pillars of Faith)

أَمَنْتُ بِاللَّهِ وَمَلَائِكَتِهِ وَكُتُبِهِ وَرُسُلِهِ وَالْيَوْمِ
الْآخِرِ وَالْقَدْرِ خَيْرِهِ وَشَرِّهِ مِنَ اللَّهِ تَعَالَى
وَأَلْبَعَثَ بَعْدَ الْمَوْتِ

I believe in Allah ﷻ, His Angels, His Books, His Messengers, the Last Day, and in Taqdir, that all good and bad is from Allah ﷻ the Most High and I believe in the resurrection after death. (Taqdir: Predestination)

[Surah 2 Verse 177, Surah 54 Verse 49, Surah 4 Verse 136]

QURA'AN The literal meaning of Qura'an is The Recitation. There are 4 such sacred books brought down to world naming Torat/Torah on prophet Moses/Musa, Zabur/Psalms on Prophet David/Dawood, Injeel/Bible on prophet Jesus/Isa and The Holy Qura'an on prophet Muhammed pbuh. Quran was first revealed to prophet Muhammed in the cave of Hira, Saudi Arabia in the month of Ramadan. Muslims Follow Quran and believe that it was brought in world for guidance of mankind. It took 23 years to compile the whole Quran at the time of prophet Md. Muslims recite Quran every day and follow the instructions given in the holy book. It is also believed that it is in the same state as it was made 1400 years ago and will

remain same till end of times. Muslims believe recitation of Quran keeps their heart and minds at peace.

Evidence: ^٥ وَالْقُرْآنَ الْهُدَىٰ مِّنْ وَبَيِّنَاتٍ لِّلنَّاسِ هُدًى لِّلْفُرْقَانِ فِيهِ أَنْزَلَ الَّذِي رَمَضَانَ شَهْرٌ

Translation: The month of Ramaḍān [is that] in which was revealed the Qur'ān, a guidance for the people and clear proofs of guidance and criterion

EID'S IN ISLAM

EID-UL-FITR: IT is known as Festival of breaking Fasts. Eid al-Fitr marks the end of Ramadan, the Muslim holy month of fasting, Ramadan is 9th month in Islamic calendar. Muslims fast the whole month of Ramadan, they eat from sunset to before the sunrise and the rest of the time they don't eat nor drink any liquid, the significance of fasting is to understand ones hunger of needy people and also they stay away from doing bad things (speaking bad, thinking bad) they refrain themselves from all the possible bad habits. In this month Muslims give charity of land, ornaments, pets etc in form of fitra. And Eid al-Fitr marks the end of Ramadan, and is celebrated during the first three days of Shawwāl, the 10th month of the Islamic calendar (though the Muslim use of a lunar calendar means that it may fall in any season of the year). Muslims celebrate Eid by Eid prayers, visiting family and friends and sharing gifts (Eidi) and eating festive food which lasts for 3 days.

EID-UL-ADHA: It is called the Festival of Sacrifice and also the period of Hajj (pilgrimage). The second of two great Muslim festivals, the other being Eid al-Fitr. Eid al-Adha marks the culmination of the Hajj (pilgrimage) rites at Minā, Saudi Arabia, near Mecca, but is celebrated by Muslims throughout the world. As with Eid al-Fitr, it is distinguished by the performance of communal prayer (ṣalāt) at daybreak on its first day. It begins on the 10th of Dhū al-Hijjah, the last month of the Islamic calendar, and continues for an additional three days (though the Muslim use of a lunar calendar). During the festival, families that can afford to sacrifice a ritually acceptable animal (sheep, goat, camel, or cow) do so and then divide the flesh equally among themselves, the poor, and friends and neighbours. Eid al-Adha is also a time for visiting with friends and family and for exchanging gifts. This festival commemorates the Sacrifice of prophet Abraham of his son Ismael.

iii) Speech by Anagha 3rd sem CSE (CYBER SECURITY) - Christianity

Today, let's talk about Christianity—a faith that has touched hearts for thousands of years. Today, I'd like to talk to you about Christianity, a faith that has had a profound impact on the lives of millions of people around the world. It's a religion centered around the life and teachings of Jesus Christ. Central to Christianity is the belief in salvation through faith in Jesus Christ. Christians believe that Jesus' sacrificial death on the cross paid the penalty for human sin, offering forgiveness and the promise of eternal life. This forms the core message of Christianity. Christian worship often takes place in churches. The church serves as a community where believers gather to pray, sing hymns, and learn from the Bible. Christianity is diverse, with various denominations, such as Catholicism, Protestantism, and Eastern

Orthodoxy. Each denomination may have unique practices and traditions, but they all share the fundamental beliefs in Jesus Christ as the Savior. Christians follow moral teachings derived from the Bible, including the Ten Commandments, which provide ethical guidelines for their daily lives. Love, compassion, forgiveness, and humility are central virtues emphasized in Christian teachings. It's important to note that Christianity, like any religion, has various interpretations and perspectives. While some aspects are universal, individual beliefs and practices can differ among Christians. Prayer is a significant aspect of Christian practice, allowing believers to communicate with God. The Ten Commandments, found in the Old Testament, are fundamental moral guidelines for Christians. They include principles like not stealing, not lying, and honoring one's parents. It's a faith that emphasizes the importance of faith, hope, and charity, fostering a sense of community among believers. Christianity also promotes the idea of forgiveness, urging believers to forgive those who wrong them. This principle is rooted in the teachings of Jesus, who forgave even those who crucified him. The act of forgiveness is seen as a way to achieve inner peace and build stronger communities. Christianity often emphasizes the importance of social justice and helping those in need. Many Christians engage in charitable activities, such as feeding the hungry, providing medical care, and supporting educational initiatives, as a way to live out their faith. Christianity is a diverse and dynamic faith that touches on various aspects of life, from individual ethics to global outreach. Its enduring principles continue to shape the lives of billions, offering a source of comfort, guidance, and purpose. In conclusion, Christianity is a faith centered around the life, teachings, and sacrifice of Jesus Christ. It emphasizes love, forgiveness, and the hope of eternal life. With its rich history, diverse traditions, and global impact, Christianity continues to shape the lives of millions of people around the world.

iv) Speech by Komal Singh 3rd sem CSE(CYBER SECURITY) - Sikhism

Religion is a fascinating and profound aspect of human culture. It has a wide range of beliefs, practices, and traditions that shape the lives of individuals and communities. Religion provides a framework for understanding the world, our purpose in it, and our relationship with something greater than ourselves. It offers guidance on moral values, ethical principles, and how to live a meaningful and purposeful life. Now I would like to give some information about the Sikhism religion. Sikhism is a vibrant and inclusive religion that originated in the Punjab region of India in the 15th century. It was founded by Guru Nanak Dev Ji, who emphasized the importance of equality, compassion, and selfless service. One of the core beliefs in Sikhism is the belief in one God, known as Waheguru. Sikhs strive to have a personal relationship with Waheguru and seek spiritual enlightenment through meditation and prayer. The teachings of the ten Sikh Gurus, as recorded in the Guru Granth Sahib, form the foundation of Sikhism. Equality is a fundamental principle in Sikhism. Sikhs believe that all human beings are equal regardless of their gender, caste, or social status. This is reflected in the practice of langar, where everyone, regardless of their background, sits together and shares a meal in the Sikh Gurdwara (place of worship). Sikhism is not just a religion but also a way of life. It provides a framework for Sikhs to live a meaningful and purposeful life, guided by the principles of love, compassion, and service to humanity. Sikhism is a beautiful

and inclusive religion that promotes equality, compassion, and selfless service. It offers a path to spiritual enlightenment and guides Sikhs in living a life of integrity and moral values.

Sikhism has several important festivals that are celebrated with great enthusiasm. Here are a few more details about some of them:

1. **Gurpurab:** These are the celebrations of the birth anniversaries of the ten Sikh Gurus. The most significant Gurpurab is Guru Nanak Dev Ji's birthday, known as Guru Nanak Gurpurab.
2. **Diwali:** Sikhs also celebrate Diwali, known as the Festival of Lights. Sikhs light up their homes, visit gurdwaras, and enjoy fireworks
3. **Baisakhi:** Baisakhi, as I mentioned earlier, is a major festival for Sikhs. It's celebrated on April 13th or 14th every year and marks the harvest season and the formation of the Khalsa. Sikhs gather at gurdwaras, participate in processions, and enjoy cultural performances

It's a wonderful festival that brings people together to celebrate their faith, values, and the teachings of the Sikh Gurus. It is captivated by the vibrant atmosphere and the sense of unity it brings. Sikhs believe in treating everyone as equal, regardless of their background. They engage in seva, which means selfless service, and strive to make a positive impact on society. Sikhs are easily recognizable by their articles of faith, such as the turban and uncut hair. These symbols represent spirituality, discipline, and equality. Ultimately, what matters most is the values and principles we uphold, treating others with kindness, compassion, and understanding. So, let's embrace the beauty of different religions, learn from one another, and celebrate our shared humanity.

v) Speech by Keerthi S R3rd sem CSE(CYBER SECURITY) - Buddhism

Buddhism also known as Buddha Dharma, and Dharmavinaya , is an Indian religion or philosophical tradition based on teachings attributed to the Buddha.It originated in the eastern Gangetic plain as a śramaṇa–movement in the 5th century , and gradually spread throughout much of Asia . It is the world's fourth-largest religion, with over 520 million followers (Buddhists) who comprise seven percent of the global population.Buddhism is a faith that was founded by Siddhartha Gautama—also known as “the Buddha”—more than 2,500 years ago in India. As a non-theistic faith with no god or deity to worship, some scholars describe Buddhism as a philosophy or a moral code rather than an organized religion.The primary language of Buddhism is Sanskrit, but Pali is also used by all Theravadin Buddhists, and the Pali Canon is the core textual body of all Buddhist schools.Pali is a Middle-Indo Aryan language which serves as the language in which the canonical texts of Theravada Buddhism are maintained. It is also the language used for chanting in the Theravada tradition.Many Buddhists consider participation in festivals and celebrations an important aspect of Buddhist practice. In addition to the religious background, some festivals have social and cultural features.Some of their festivals are: Losar,Abhidhamma day, Magha Puja,Asalha day, Buddha purnima,Ullambana and many other.The Buddha taught about Four Noble Truths.

The first truth is called “Suffering (dukkha),” which teaches that everyone in life is suffering in some way. The second truth is “Origin of suffering (samudāya).” This states that all suffering comes from desire (tanhā). The third truth is “Cessation of suffering (nirodha),” and it says that it is possible to stop suffering and achieve enlightenment. The fourth truth, “Path to the cessation of suffering (magga)” is about the Middle Way, which is the steps to achieve enlightenment. Buddhists believe in a wheel of rebirth into different bodies. This is connected to “karma,” which refers to how a person’s good or bad actions in the past or in their past lives can impact them in the future. At last I would like to conclude by saying that every religion holds immense significance in shaping the lives and beliefs of its followers. Each faith offers unique perspectives, teachings, and practices that contribute to the rich tapestry of human spirituality. By acknowledging the importance of every religion, we foster a sense of inclusivity, respect, and understanding. Embracing religious diversity allows us to appreciate the beauty of different traditions and promotes harmony in our global community. Let’s celebrate the value and significance of every religion!

vi) Speech by Hema 3rd sem CSE(CYBER SECURITY) - Judaism

Judaism is a monotheistic religion, believing in one god. It is not a racial group. Individuals may also associate or identify with Judaism primarily through ethnic or cultural characteristics. Jewish communities may differ in belief, practice, politics, geography, language, and autonomy. The origins of Jewish faith are explained throughout the Torah. According to the text, God first revealed himself to a Hebrew man named Abraham, who became known as the founder of Judaism. Judaism believe that God is one, has no form, created the world, is eternal and is still actively involved in world affairs. Jewish festivals and celebrations are focussed around the important events in the history of the Jews. Most of the Jewish holidays are the Pilgrim Festivals. Some of the major festivals and celebrations of Jews are Days of Awe, Jewish New Year (Rosh Hashanah), Day of Atonement (Yom Kippur), Festival of Thanksgiving (Sukkot), Festival of Lights (Hanukah), Merry Making Festival (Purim), Festival of Freedom (Pessah or Passover) and Festival of Weeks (Shabuot).

1. INTRODUCTION :

The main goal of the empowerment program is to inspire and educate students to be better prepared for the challenges of globalization. Student empowerment refers to the process of helping students develop the tools and resources they need to become independent learners. Empowering students involves creating a supportive and inclusive learning environment that fosters critical thinking, problem-solving, and creativity.

Department of Electronics & Communication Engineering conducted **Student Empowerment Program** in Association With IETE, IEEE, ISTE & EWB Bangalore Centre and ECE department coordinator.

2. OBJECTIVE OF THE EVENT:

Improve Communication and Collaboration Skills: The program aims to enhance students' communication and collaboration skills. Inquiry-based learning will encourage students to work together on projects and share their ideas effectively. The individual plans will identify areas where students can improve their interpersonal skills, enabling them to collaborate with peers more efficiently.

3. OUT COME FOR THE EVENT:

Students are able to gain a knowledge in the field of Entrepreneurship and Intrapreneurship opportunity in the field of Electronics and Communication Engineering which helps them to make decisions and implement changes in their carrier.

4. ABOUT SAMBHRAM INSTITUTE OF TECHNOLOGY

Sambhram Institute of Technology is an offshoot of the **Sambhram Group**, widely known for its services in education, health, housing, property development, hotels and resorts. Sambhram Education Trust is the educational arm of the Group and it runs several professional institutions in Bangalore, KGF in Karnataka state and Chittoor in Andhra Pradesh.

5. ABOUT DEPARTMENT OF ELECTRONICS & COMMUNICATION ENGINEERING

The Department since its inception in 2001, always trying its level best to impart theoretical knowledge with proper blend of practical aspects to suite the real demand from the industry by not only covering fully the VTU syllabus but also beyond by conducting regular seminars , workshops, conferences, technical talks by eminent personalities from academia, R&D and Industry which made us our students continuously getting good overall pass percentage and well placed in many national and international companies like INFOSYS, SONATA,TCS, WIPRO,TEXAS, INTEL etc.... and also our students are pursuing higher studies in best universities in the world. The Department regularly allowed students to undergo internship training and innovative projects in various industries, conducted various industrial tours, and

other technical activities, the students are encouraged to do the students projects from their first year itself and pre final and final year projects in various public and private industries and R&D centres. Every year our student's projects are getting selected for funding by KSCST and other organizations.

6. TIMINGS OF THE PROGRAM:

11:00AM-1:00PM

7. ABOUT THE PROGRAM:

The main goal of the empowerment program is to inspire and educate students to be better prepared for the challenges of globalization. Student empowerment refers to the process of helping students develop the tools and resources they need to become independent learners. Empowering students involves creating a supportive and inclusive learning environment that fosters critical thinking, problem-solving, and creativity.

8. AGENDA OF THE PROGRAM:

- WELCOME SPEECH
- ABOUT COLLEGE AND DEPARTMENT
- ABOUT KARUNADU TECHNOLOGIES
- INTRODUCTION TO Dr.E.KAVITHA
- INTRODUCTION TO Mr.HARISH.N
- TALK ON ENTREPRENEURSHIP AND INTRAPRENEURSHIP OPPERTUNITIES IN ECE
- TALK ON IOT AND IT'S APPLICATIONS
- VOTE OF THANKS
- NATIONAL ANTHEM

9. DETAILED REPORT :

Sambhram Education Trust is the educational arm of the Group and it runs several professional institutions in Bangalore, KGF in Karnataka state and Chittoor in Andhra Pradesh.

5.ABOUT DEPARTMENT OF ELECTRONICS & COMMUNICATION ENGINEERING:

The Department since its inception in 2001, always trying its level best to impart theoretical knowledge with proper blend of practical aspects to suite the real demand from the industry by not only covering fully the VTU syllabus but also beyond by conducting regular seminars, workshops, conferences, technical talks by eminent personalities from academia, R&D and Industry which made us our students continuously getting good overall pass percentage and well placed in many national and international companies like INFOSYS, SONATA,TCS, WIPRO,TEXAS, INTEL etc.... and also our students are pursuing higher studies in best universities in the world. The Department regularly allowed students to undergo internship training and innovative projects in various industries, conducted various industrial tours, and other technical activities, the students are encouraged to do the students projects from their first year itself and pre final and final year projects in various public and private industries

and R&D centres. Every year our student's projects are getting selected for funding by KSCST and other organizations.

6. TIMINGS OF THE PROGRAM:

11:30AM-1:00PM

7.ABOUT THE PROGRAM:

The program started with knowing the importance of radio and world radio day, followed by a talk by the resource person on the topic "INTRODUCTION TO EMBEDDED SYSTEMS AND DESIGNS".

8.AGENDA OF THE PROGRAM:

- WELCOME SPEECH
- LIGHTING OF THE LAMP
- ABOUT WORLD RADIO DAY
- DEAN'S SPEECH
- INTRODUCTION TO CHIEF GUEST
- TECHNICAL TALK BY CHIEF GUEST
- ANNOUNCING OF IETE OFFICE BEARER OF SAIT STUDENT CHAPTER
- VOTE OF THANKS
- NATIONAL ANTHEM

9.DETAILED REPORT :

“MOU SIGNING AND TECHNICAL TALK ON AI & ML AND ITS APPLICATION”

In Association with

Karunadu Technologies Private Ltd.

IETE (Institution of Electronics and Telecommunication Engineers)

Supported by:

Students chapters of IETE,IEEE,ISTE&EWB

Co-ordinators:

Prof.S.Sowndeswari Asst. Professor, Dept. Of ECE

Guest of Honor:

Mr.Darshan Kumar S,CTO&Co-founder Karunadu Technologies Pvt.Ltd

Chief Guest:

Mr.Mahesh Deginal,Managing Director &CEO KarunaduTechnologies Pvt.Ltd

Invited by:

Prof.Girish Kumar.N.G,President Alumni Association

Dr.Ravishankar.C.V, HOD-ECE

Prof.S.Sowndeswari Asst. Professor, Dept. Of ECE

Patrons:

Dr. K.V. Prasad, Dean-Research, SaIT

2. BRIEF PROFILE OF THE RESOURCE PERSON

Mr. Vaibhav Kumar Jain

Mr. Vaibhav Kumar Jain, is a distinguished professional currently holding the position of Senior Specialist at Wiley Online Exam Prep, a division of the illustrious Wiley India—a publishing institution with over 215 years of legacy in content creation. Vaibhav brings a wealth of experience to the table, with more than three years dedicated to UPSC CSE research and counseling. His journey in the competitive exams domain spans over a decade, reflecting a profound understanding of the nuances and challenges inherent in this field. A testament to his commitment, Vaibhav has provided personalized UPSC CSE counseling to over 500 students in the last three years, offering invaluable one-on-one guidance and support. His passion for education and dedication to the success of aspiring candidates make him a true asset in the competitive exams landscape. Vaibhav is an alumnus of Calcutta University, where he laid the foundation for his academic journey. Further enriching his profile, he holds an MBA from IBS Mumbai, a testament to his commitment to continuous learning and professional development.

Chandrashekar Chief Librarian, suggested the learning material to be used for the preparation of the exams.

The session aimed to provide students with valuable insights into the preparation strategies, challenges, and experiences associated with attempting the prestigious UPSC Civil Services Exams. Mr. Vaibhav Kumar Jain commenced the session by sharing his comprehensive preparation strategies for the UPSC Civil Services Exams. He emphasized the importance of understanding the exam pattern, syllabus, and marking scheme to devise an effective study plan. He encouraged students to adopt a holistic approach, covering all relevant subjects and current affairs comprehensively. Additionally, he stressed the significance of regular revision, mock tests, and self-assessment in gauging one's progress and identifying areas for improvement. During the discussion, Mr. Vaibhav Kumar Jain candidly addressed the challenges commonly faced by UPSC aspirants. He highlighted the vastness of the syllabus, the competitive nature of the exams, and the uncertainty surrounding the question pattern as significant hurdles. Moreover, he shared personal anecdotes of overcoming challenges such as time management, stress management, and maintaining motivation throughout the rigorous preparation process. His insights provided students with a realistic understanding of the demands and expectations associated with attempting the UPSC Civil Services Exams. Mr. Vaibhav Kumar Jain concluded the session by offering valuable tips and recommendations to aspiring UPSC candidates. He emphasized the importance of consistency, perseverance, and self-belief in achieving success in the exams. Additionally, he encouraged students to stay updated with current affairs, develop a strong conceptual understanding of core subjects, and cultivate effective writing and communication skills. Moreover, he emphasized the significance of maintaining a healthy work-life balance and seeking guidance from mentors and peers throughout the journey. Mock exams were conducted to students to evaluate their preparedness to the UPSC civil exams and the scores were announced. In conclusion, the discussion session with Mr. Vaibhav Kumar Jain on the UPSC Civil Services Exams proved to be highly informative and insightful for students aspiring to pursue a career in civil services. His expertise, practical advice, and motivational anecdotes provided students with a clearer understanding of the challenges and opportunities associated with attempting the UPSC exams. The session served as a valuable platform for students to gain valuable insights, clarify doubts, and chart a strategic course of action for their UPSC preparation journey.

2. BRIEF PROFILE OF THE JURY PANEL

1. Mr. Arjun Bhaskaran

Mr. Arjun Bhaskaran is a seasoned professional in the fields of Cybersecurity, Fintech, and Insurtech, bringing with him 33 years of experience in the BFSI industry verticals. His notable roles include: CTO of Mediassist, India's No.1 Health Insurance TPA. CISO at TTK / Vidal TPA, where he successfully implemented ISO 27001 ISMS and ISO 22301 Business Continuity Management System. Director of Tata Group Insurance TPA subsidiary. Consultant to Kirloskar Toyota Insurance JV. Head of Insurance BPO at UTI Technologies, a Govt of India company. In the Fintech sector, he spent 11 years with the Unit Trust of India group, where he played key roles in significant projects: Founding team member of Axis Bank, overseeing IT implementation from conception to go-live. Founding team member of UTI Securities, managing real-time stock trading using the TIBCO platform. Mr. Arjun Bhaskaran has an extensive background in implementing various Cybersecurity projects, including initiatives for India's premier Lifesciences company, which has now achieved Unicorn status. Over the last two years, he has been dedicated to developing the Cyberinsurance ecosystem in India and has actively participated as a speaker at numerous industry technology forums.

2. Mr. Bennet Mendis

Bennet Mendis is a distinguished individual who has made significant contributions to the field of technology and business as the co-founder and CEO of INFOLIFE Technology Pvt. Ltd. His educational background is marked by excellence, having pursued a Master of Science degree in Operations Research from Manonmaniam Sundaranar University. Notably, he achieved the distinction of being a gold medalist in this field, highlighting his exceptional academic prowess and dedication to his studies. Operations Research (OR) is a discipline that deals with the application of advanced analytical methods to aid decision-making and problem-solving in complex organizational systems. Through his studies in OR, Mendis has likely gained a deep understanding of mathematical modeling, optimization techniques, simulation, and other quantitative methods essential for addressing various challenges in business operations, logistics, supply chain management, and related areas. As a gold medalist in Operations Research, Mendis has demonstrated exceptional competence and proficiency in applying analytical techniques to solve real-world problems efficiently and effectively. This academic achievement reflects his commitment to excellence and his ability to excel in challenging academic pursuits. In his role as the co-founder and CEO of INFOLIFE Technology Pvt. Ltd., Mendis likely leverages his expertise in Operations Research to drive innovation, optimize processes, and develop cutting-edge solutions for the company's clients. His combination of academic excellence, leadership skills, and business acumen positions him as a key figure in the technology industry, capable of steering his company towards success in a competitive market landscape.

3. Mr. Rahul Reddy

Mr. Rahul Reddy stands out as a highly skilled and versatile professional within the realm of Electronics and Communication Engineering. With a proven track record of success across multiple domains, he has demonstrated his proficiency and expertise in various fields. As the Co-founder of Abhaya, a cybersecurity startup, Rahul Reddy showcases his entrepreneurial spirit and commitment to addressing one of the most pressing concerns of modern businesses – cyber threats. Through Abhaya, he leads a team dedicated to providing innovative solutions aimed at safeguarding businesses from potential cybersecurity breaches. His leadership and vision drive the company towards offering cutting-edge cybersecurity measures tailored to the specific needs of clients. Moreover, Rahul's expertise extends beyond his engineering background. As a Full Stack Web Developer and Full Stack Cloud Engineer, he possesses a comprehensive skill set that enables him to design, develop, and deploy custom web applications while also providing scalable cloud solutions for clients. This diverse skill set equips him to tackle complex technological challenges holistically, offering end-to-end solutions that meet the evolving demands of the digital landscape. Rahul Reddy's passion for technology and his unwavering dedication to solving complex problems underscore his value as an asset to any team. His proactive approach to seeking out new challenges and opportunities for growth reflects his commitment to continuous learning and development within his field. This mindset not only fuels his personal and professional advancement but also contributes to the overall success and innovation of the teams and organizations he engages with.

4. Mr. Vignesh Waran

Mr. Vignesh Waran is an accomplished professional with a focus on cybersecurity and web solutions, currently serving as the Program Manager of the Cyber Security Conclave Division at News 1st Channel. With his extensive experience and expertise, he plays a pivotal role in orchestrating initiatives and collaborations at NextGrids, a company likely dedicated to providing innovative solutions in the cybersecurity and technology sector. As the Program Manager of the Cyber Security Conclave Division, Vignesh is entrusted with the responsibility of overseeing strategic programs and events aimed at addressing the evolving challenges and trends in cybersecurity. This role requires not only technical knowledge but also excellent organizational and managerial skills to ensure the success of these initiatives. Vignesh's passion for empowering small and medium-level businesses is evident in his dedication to providing highly efficient web solutions. By leveraging his expertise in cybersecurity and technology, he aims to enable these businesses to establish a significant market presence without the need for substantial upfront investments. This approach underscores his commitment to fostering growth and innovation within the business community, particularly among smaller enterprises that may face resource constraints. Moreover, Vignesh's involvement in managing initiatives and collaborations at NextGrids indicates his proactive stance in driving the company's mission forward. In this capacity, he likely plays a key role in identifying strategic partnerships, fostering innovation,

and executing projects that align with NextGrids' objectives in the cybersecurity and technology space.

1.	1ST20CS047	Heena Ahmed
2.	1ST20CS131	Umme kulsum
3.	1ST20CS136	Vishal Sharma
4.	1ST20CS139	Vivek Tandle
5.	1ST20CS047	Heena Ahmed

Team 4: Cyber knights - 5thsem CSE & ISE

SI No.	USN	Student Names
1.	1ST21IS045	S Guruprasad
2.	1ST21CS202	Sinchana B S
3.	1ST21CS186	Shalini K G
4.	1ST21CS205	Soniya Kumari B
5.	1ST21CS162	Punya D K

Team 5: - Tech Pioneers 3rdsem – CSE

SI No.	USN	Student Names
1.	1ST22CS081	K Manjunath
2.	1ST22CS108	Manoj. R
3.	1ST22CS073	J Sowmya
4.	1ST22CS112	MD. Shish
5.	1ST22CS069	Harsha T

Team 6: Build.gradle - 5thsem CSE

SI No.	USN	Student Names
1.	1ST21CS016	Amitha Raj B.
2.	1ST21CS030	Aryan Raj
3.	1ST21CS031	Aryan Singh
4.	1ST21CS174	Rishab Kumar R
5.	1ST21CS176	Ritik Kumar

6. BRIEF REPORT ON THE PROGRAM

The internal evaluation of the cybersecurity hackathon held at Sambhram Institute of Technology on February 21st, 2020, marked a significant milestone in fostering innovation and talent within the field of cybersecurity. Organized by the Cyber Crimes Conclave Division of the NEWS 1st Channel, the event aimed to provide a platform for aspiring cybersecurity enthusiasts to showcase their skills and solutions in addressing contemporary cyber threats.

Eleven teams were selected to participate, each tasked with tackling one of five problem statements provided by the organizers. These problem statements likely encompassed various aspects of cybersecurity, such as Advance Cybersecurity testing, Data Security and privacy, Phishing Attack Security, Phishing and social engineering, Vulnerability and Security Configuration for Big IT Infrastructure (B2B Enterprises). Over the course of the event, participants worked diligently to develop innovative solutions to these challenges, leveraging their technical expertise and creativity.

The teams presented their solutions to a jury panel comprised of experts and professionals in the field of cybersecurity. The evaluation process was rigorous, with each solution scrutinized for its technical proficiency, innovation, feasibility, and effectiveness in addressing the specified problem statement. After careful deliberation, six teams were selected by the jury panel to advance to the final round of the hackathon.

The opportunity to compete in the final round, scheduled to be held at the prestigious Indian Institute of Science (IISc) on February 28th and 29th, 2020, represents a significant achievement for the selected teams. It not only validates their hard work and dedication but also provides them with a platform to showcase their solutions on a larger stage and to network with industry professionals, researchers, and fellow enthusiasts.

Participating in the hackathon at Sambhram Institute of Technology afforded students invaluable experience and exposure to real-world cybersecurity challenges. Beyond technical skills, they gained insights into teamwork, problem-solving, presentation, and critical thinking – essential qualities for success in the field of cybersecurity.

The entire event was covered by NEWS 1st channel and is also made available on youtube <https://www.youtube.com/watch?app=desktop&v=QP-DBtXxVTE>

Overall, the hackathon served as a catalyst for fostering talent, innovation, and collaboration in the realm of cybersecurity. It provided participants with a platform to hone their skills, gain practical experience, and connect with industry leaders, furthering their journey towards becoming adept cybersecurity professionals.

7. DETAILS OF PROBLEM STATEMENTS

1. Phishing and Social Engineering

Design a real-time AI system that detects and flags suspicious emails, SMS, and social media messages attempting to phish or socially engineer financial information from customers. The solution may be in the form of a desktop/mobile application or a web browser plugin.

Bonus: Integrate the system with existing communication channels to seamlessly warn users about potential scams without disrupting legitimate interactions.

Considerations -

- Design clear and intuitive interface for warnings and explanations.
- Allow users to adjust sensitivity levels and tailor detection rules.
- Avoid excessive notifications that disrupt user workflow.
- Regularly update AI models and threat intelligence to maintain effectiveness against evolving phishing tactics.

2. Data Privacy and Security

Develop innovative solutions to anonymize and secure sensitive financial data while still enabling valuable analytics and insights for risk management and personalized services.

Bonus: Explore decentralized data storage or blockchain-based approaches to enhance data ownership and control for customers.

3. Vulnerability and Security Configuration Management for Big IT Infrastructure (B2B Enterprises) Enterprises with extensive IT infrastructure find it challenging to prioritize vulnerabilities and manage security configurations. Develop a solution that assists them in identifying and prioritizing vulnerabilities for patching, as well as managing security misconfigurations.

4. Phishing

Attack Security Phishing attacks, initiating 94% of cyber incidents, often start with malicious emails. Develop a solution that allows organizations or individuals to proactively check emails for malicious attachments, sender reputations, and potentially harmful content. This tool aims to prevent the compromise of networks through phishing attacks, including those initiated through advanced language models like ChatGPT.

5. Advanced Cybersecurity Testing

Cybersecurity Testing Traditional Vulnerability Assessment and Penetration Testing (VAPT) may fall short in providing comprehensive security coverage. Create an automated solution that goes beyond traditional VAPT by incorporating various attack tactics, techniques, and procedures. This tool should assess network architecture, simulate ransomware attacks, and provide organizations with a detailed understanding of their internal and external attack surfaces.

8. FEEDBACK BY THE PARTICIPANTS

Please state your level of agreement with the statement: The duration of the presentation was just right. (Not too long or not too short)

Good

Very good

Big Thumbs Up

-

It was a good one

Got to learn a lot things, waiting for more of these kinds of activities/events,so tht I can participate and show my skills and also learn a lot from it.

Very Good

Very good

Amazing experience.....

-

Was first time experience which made me to think innovative other than syllabus

Had a great time with the jury members and they've given us a great suggestion which we will implement in our project further

It was my first hackathon event very glad!

Wonderful experience

Very kind jury panel, good conduction of the events, friendly staff. Overall experience was phenomenal.

Wonderful...

Excellent

I was very good and like to participate in such hackathon's again.

Share Your experience

38 responses

I was very good and had to participate in such hackathons again.

It was a very good experience

Good

They have given us a great idea which we will implement in our project

As a first time hackathon participant, It was great.

My experience in this hackathon was good it was first hackathon for me and my team it was very interesting and we learnt something new basically we are 2 year cyber security students i know how to brake into a system but didn't know how to build a webapp so it was very new thing for me overall it was a good experience for me

My experience was truly great, and this hackathon enabled to explore my capabilities and learn a lot of stuff. I'm eager to work and learn to give back to the tech community and solve problems out there.

Good in everything

Share Your experience

Overall experience was good. Got to know about many new things from the expertise of jury members. Gained a positive viewpoint from the reviews over the projects from the jury.

We are motivated after been given this chance to participate in the hackathon. We have achieved almost everything what we planned to. The competition was intense. Overallly the experience was nice and good.

It was good experience very happy

It was the first time but the confidence increased to next level

Yeah, it was good. It's my first experience

Got learn and think practical and innovative which is other than the syllabus

Was GOOD

The jury were awesome

3. BRIEF REPORT ON THE PROGRAM

Library Day, a celebration of the written word and the treasure troves of knowledge they reside in, was conducted with great enthusiasm on September 7, 2023, at the prestigious Central Library of IT Block, SaIT. The event, which took place from 3:00 to 3:30 pm, marked a significant occasion for both students and staff alike.

One of the highlights of this event was the Book Donation Drive, which ran from the 4th to the 7th of September. It was heartening to witness the overwhelming response from the SaIT community, as more than a hundred books were generously donated during this drive. This act of benevolence not only reflects the spirit of giving but also underscores the commitment of the SaIT community to the promotion of literacy and knowledge sharing.

A book exhibition, organized as part of the Library Day festivities, showcased the literary prowess of New Age International (P) Ltd. Publishers from Bangalore. Approximately 46 books spanning various disciplines were meticulously displayed for all to explore and appreciate. This exhibition was a testament to the diverse range of knowledge that libraries make accessible to curious minds.

The event was elegantly hosted by Ms. Anagaha and Ms. Hema, both second-semester students of the CSE (Cybersecurity) program at SaIT. Their seamless coordination and affable demeanor set the tone for the day's proceedings.

The Library Day celebrations commenced with an Invocation song, gracefully presented by Prof. Ashwini from the Civil department, setting a contemplative ambiance. Dr. Sanjeetha R, the Head of the Department for CSE (CyberSecurity), extended a warm welcome to the esteemed gathering. She graciously greeted the Management, Principal, Deans, and Heads of all departments present, emphasizing the importance of the event.

The ceremonial lighting of the lamp, a symbol of knowledge and enlightenment, was conducted by the Deans and Heads of Departments, signifying the collective commitment to promoting the spirit of learning and reading.

Dr. K.V. Prasad, Dean Research, took the stage to shed light on the significance of Library Day and the act of donating books. His insightful words resonated with the audience, emphasizing the enduring impact of sharing knowledge.

Dr. Ravishankar, Head of the Department for ECE, followed with an engaging discourse on the practical benefits of libraries and the pivotal role books play in shaping students' lives. His words were a reminder that libraries are not just repositories of books but sources of transformation and growth.

Dr. KrishnaRajan, Head of the MBA Department, expanded on the profound relevance of libraries and the invaluable role played by library books in the academic journey of students. His address reinforced the idea that libraries are the cornerstone of academic excellence.

Ms. Vasantha Lakshmi, the Librarian at SaIT, passionately elaborated on the extensive collection of books that our library proudly hosts, representing a diverse array of disciplines and genres. She provided details about the facilities, including the number of books, e-resources, journals, and plagiarism software called "Drillbit," that are available at our Institute library.

The student perspective was eloquently shared by Mr. Namit, a second-semester student of CSE (Cybersecurity), who delivered a concise yet impactful speech on the enduring value of books and libraries in a student's life.

Ms. Vaishnavi, also a second-semester student of CSE (Cybersecurity), added her perspective, highlighting the indispensable role books play in the holistic development of students.

The event was further enriched by the presence of Mr. K V Rajkumar from New Age Publishers, who was commended for organizing the book exhibition and generously donating all 46 books that were on display. His contribution further underscored the collaborative spirit of the occasion.

In recognition of the book donors' generosity, thank-you cards were distributed to faculties as tokens of appreciation during the event, a gesture that reinforced the sense of community and gratitude. Thank-you cards were given to students as soon, as they donated the books.

The event culminated with a heartfelt vote of thanks proposed by Mr. Jagadeesh, Assistant Professor in the Mechanical Engineering Department. His words of appreciation resonated with the audience, acknowledging the collective effort that made Library Day a resounding success.

In conclusion, Library Day at SaIT was not merely an event but a celebration of knowledge, community, and the enduring power of books. It left an indelible mark, reminding all present that libraries are not just repositories of books but gateways to wisdom, insight, and boundless discovery. This celebration emphasized that the love for reading and learning is a gift we can all share, enriching not only our lives but the world around us.

1. INTRODUCTION

About NassCom

The National Association of Software and Service Companies is an Indian non-governmental trade association and advocacy group that primarily serves the Indian technology industry. Founded in 1988, NASSCOM operates as a nonprofit organization and serves as a key entity within the Indian technology sector.

2. OBJECTIVE OF THE EVENT

Nasscom FutureSkills was launched on 19th February 2018 in the presence of senior industry leaders and government officials. Future Skills portal uses the technology of the future, to create a space where a Students/learner can access content on all the skills of the future. A learner can seamlessly access free and paid content, assessments, virtual labs and get certified on the skills of their choice.

3. OUT COME FOR THE EVENT

CONTINUOUS LEARNING

Curated content and curated learning pathways can enable a learner on a journey that can be undertaken at any time aid in the application.

DEEP SKILLING

Once the learners have discovered where their interests and aptitude lie, by exploring about each of the technologies, they can use the marketplace of training providers on FutureSkills to go through a formal course with certification in their area of choice.

4. ABOUT SAMBHRAM INSTITUTE OF TECHNOLOGY

Sambhram Institute of Technology is an offshoot of the **Sambhram Group**, widely known for its services in education, health, housing, property development, hotels and resorts. Sambhram Education Trust is the educational arm of the Group and it runs several professional institutions in Bangalore, KGF in Karnataka state and Chittoor in Andhra Pradesh.

5. ABOUT NASS COM

Nasscom, a not-for-profit industry association, is the apex body for the \$245 billion technology industry in India, an industry that has made a phenomenal contribution to India's GDP, exports, employment, infrastructure and global visibility. In India, this industry provides the highest employment in the private sector.

Established in 1988 and ever since, nasscom's relentless pursuit has been to constantly support the technology industry, in the latter's continued journey towards seeking trust and respect from varied stakeholders, even as it reorients itself time and again to remain innovative, without ever losing its humane and friendly touch.

Nasscom is focused on building the architecture integral to the development of the technology sector through policy advocacy, and help in setting up the strategic direction for the sector to unleash its potential and dominate newer frontiers.

6. TIMINGS OF THE PROGRAM

11:30-1:00pm

7. ABOUT THE PROGRAM

As a host of emerging technologies change the future of work, a massive disruption is facing the IT-ITES industry today. Of the 4.5 m people employed in the industry today, 1.5 -2 m are expected to require reskilling in the next 4-5 years. A decoupling of revenue and headcount growth is visible even today and employers and employees need to adapt themselves to the changing job environment of technological shifts and changing stakeholder expectations. The problem is too large to be handled alone. It needs a collaborative industry level response. With nasscom as the enabler, IT-ITeS Industry has stepped up to the challenge with the FutureSkills Initiative – a truly industry driven learning ecosystem.

To,
The Principal,
Sambhram Institute of Technology
Bengaluru - 560097

Date: 18/01/24

From,
HoDs - ISE, AI-ML, AI-DS, CSE(CY)

Respected Sir,

Sub: Requesting permission to conduct a seminar on 19th January 2024.

We are writing to formally request your permission to conduct a seminar on 19th January 2024. We have invited Mr. Satish D V, Deputy Director, E & RD Council Nassecom to give a seminar on "Digital Engineering". The session is proposed to be conducted from 11:30 am to 12:30 pm at CSE Seminar Hall. Students of ISE, AI-ML, AI-DS and CSE(CY) will be attending this seminar. The students will get an insight into the future skills platform provided by MeitY and Nassecom. The seminar will be conducted at a nominal cost of Rs. 500 to cover expenses for inauguration and memento. We kindly request your permission to proceed with this event and seek your support in ensuring its success.

Thanking You

Your's Sincerely

To The CM

--------------------------------------	---	--------------------------------

2. BRIEF PROFILE OF THE RESOURCE PERSONS

1. Mr. Darshan Kasaravalli

Mr. Darshan Kasaravalli, who serves as the Director of the Cyber Security Conclave Division at News 1st Channel, actively contributes to the growth and success of NextGrids, where he holds the position of co-founder. In the company's formative stages, he played a crucial role in rejuvenating its operations, working closely with Vignesh Waran. Together, they revitalized NextGrids, instilling new energy and direction into the organization. Their collaborative efforts didn't go unnoticed, as they successfully brokered a partnership with the News 1st Team. This achievement stands as a significant milestone in both the Cyber Security and blockchain domains, highlighting their adeptness in forging strategic alliances and leveraging synergies between industry players. In addition to his role at NextGrids, Mr. Kasaravalli continues to spearhead initiatives within the Cyber Security Conclave Division at News 1st Channel, further solidifying his influence and expertise in the field. Through proactive engagement and innovative solutions, he remains at the forefront of driving advancements and promoting awareness in Cyber Security and related technologies.

2. Mr. Pavan Thanai

Mr. Pavan Thanai, currently serving as the Program Manager of the Cyber Security Conclave Division at News 1st Channel, actively drives initiatives within the cybersecurity domain. In addition to his corporate role, he is an accomplished entrepreneur and the founder of Last Link, a renowned production company acclaimed for its expertise in organizing events. Beyond his entrepreneurial endeavors, Pavan is a distinguished academic, holding a master's degree in computer science with a specialization in cybersecurity from Oregon State University, USA. His academic background underscores his profound understanding of cybersecurity principles and practices, enabling him to navigate complex technological landscapes with ease. Pavan's commitment to the tech community extends further as he assumes the role of program manager for the News 1st Cybersecurity Hackathon. In this capacity, he orchestrates collaborative efforts aimed at fostering innovation and advancing cybersecurity solutions. Through his multifaceted contributions, Pavan emerges as a dynamic force driving progress and innovation within the cybersecurity realm.

4. BRIEF REPORT ON THE PROGRAM

On 6th February 2024, the "Hackathon on Cyber Security" talk took place at the CSE Seminar hall in Sambhram Institute of Technology from 12:00pm to 1:00pm. Dr. Sanjeetha. R HoD, Dept. of CSE(Cyber Security) initiated the event by delivering the welcome address, setting the tone for discussions surrounding the Hackathon on Cyber Security. Following this, Dr. K.V Prasad, Dean (Research) and Dr. Ravishankar HoD, Dept. of Electronics and Communication Engineering provided a comprehensive briefing about the hackathon, laying the groundwork for further deliberations. Mr. Darshan Kasaravalli and Mr. Pavan Thanai, representing the Cyber Crimes Conclave Division of NEWS 1st Channel, took center stage to engage the audience with an insightful introductory talk. With a blend of expertise and passion, they commenced by highlighting the paramount importance of the hackathon in the realm of cybersecurity. Drawing from their extensive experience in the field, Mr. Kasaravalli and Mr. Thanai eloquently articulated the significance of such collaborative events in addressing contemporary cybersecurity challenges. They emphasized the practical relevance of the hackathon as a platform for fostering innovation, honing problem-solving skills, and cultivating a proactive approach to cybersecurity issues. Moreover, the speakers did not merely skim the surface; they delved into the intricate details of the problem statements, offering profound insights and strategic clues to the attending students. Their elucidation provided a solid foundation for the participants to grasp the complexities of the challenges ahead and empowered them with the necessary tools and knowledge to approach the tasks effectively. Throughout their talk, Mr. Kasaravalli and Mr. Thanai fostered an interactive environment, encouraging students to actively engage by posing questions, seeking clarification, and sharing their perspectives. This dynamic exchange of ideas not only enriched the learning experience but also instilled a sense of confidence and motivation among the audience, inspiring them to embrace the forthcoming hackathon with enthusiasm and determination. In essence, Mr. Darshan Kasaravalli and Mr. Pavan Thanai's introductory session served as a catalyst for igniting the students' passion for cybersecurity, equipping them with the insights and guidance needed to navigate the challenges ahead successfully. Their expertise, coupled with their engaging delivery, left a lasting impression, setting the stage for a rewarding and transformative hackathon experience. Throughout the session, students actively engaged with the speakers, participating in discussions and posing queries with enthusiasm. The informative presentations and interactive approach of the speakers made a lasting impression on the attendees, fostering motivation and eagerness to participate in the upcoming hackathon. It's noteworthy that the Cyber Crimes Conclave Division of NEWS 1st Channel had previously announced the Hackathon on Cyber Security, with attractive prizes of Rs. 2 Lakhs, 1 Lakh, and Rs. 50,000 for the first, second, and third prize winners, respectively. This announcement further heightened anticipation and interest among the students, fueling their enthusiasm to partake in the event.

5. DETAILS OF PROBLEM STATEMENTS

1. Problem #1 - Phishing and Social Engineering

Design a real-time AI system that detects and flags suspicious emails, SMS, and social media messages attempting to phish or socially engineer financial information from customers. The solution may be in the form of a desktop/mobile application or a web browser plugin. Bonus: Integrate the system with existing communication channels to seamlessly warn users about potential scams without disrupting legitimate interactions.

Considerations -

- Design clear and intuitive interface for warnings and explanations.
- Allow users to adjust sensitivity levels and tailor detection rules.
- Avoid excessive notifications that disrupt user workflow.
- Regularly update AI models and threat intelligence to maintain effectiveness against evolving phishing tactics.

2. Problem #2 - Data Privacy and Security

Develop innovative solutions to anonymize and secure sensitive financial data while still enabling valuable analytics and insights for risk management and personalized services.

Bonus: Explore decentralized data storage or blockchain-based approaches to enhance data ownership and control for customers.

3. Problem #3 - Vulnerability

and Security Configuration Management for Big IT Infrastructure (B2B Enterprises)

Enterprises with extensive IT infrastructure find it challenging to prioritize vulnerabilities and manage security configurations. Develop a solution that assists them in identifying and prioritizing vulnerabilities for patching, as well as managing security misconfigurations.

4. Problem # 4 - Unified

Management of Highly Distributed IT Infrastructure (B2B)

Large enterprises often have highly distributed IT infrastructure across various locations, multiple cloud providers, and on-premises setups. Creating a solution that enables enterprises to manage and secure their distributed IT infrastructure seamlessly from a single console is crucial. This solution should provide centralized control over all servers and components.

5. Problem #5 - Security of Manufacturing Units in Critical Infrastructure (B2G & B2B)

With the integration of automation and the internet in Industry 4.0, securing critical infrastructure like power grids, manufacturing units, water supply systems, healthcare infrastructure, and railways becomes paramount. Focus on the security of manufacturing units, particularly those utilizing Industrial IoTs, ICS/SCADA/OT devices, and robots.

Develop a solution that controls network communication, filters malicious commands, and ensures security without disrupting operations.

6. Problem #6 - Cloud Security for Businesses (B2B)

As businesses transition rapidly to cloud technologies, there is a misconception about cloud platforms being inherently secure. The reality is that the responsibility for a significant portion of cloud security lies with the users. Create a solution to identify misconfigurations, publicly open services, and APIs in cloud platforms, providing assistance in securing the cloud environment.

7. Problem #7 - Phishing

Attack Security Phishing attacks, initiating 94% of cyber incidents, often start with malicious emails. Develop a solution that allows organizations or individuals to proactively check emails for malicious attachments, sender reputations, and potentially harmful content. This tool aims to prevent the compromise of networks through phishing attacks, including those initiated through advanced language models like ChatGPT.

8. Problem #8 - Advanced

Cybersecurity Testing

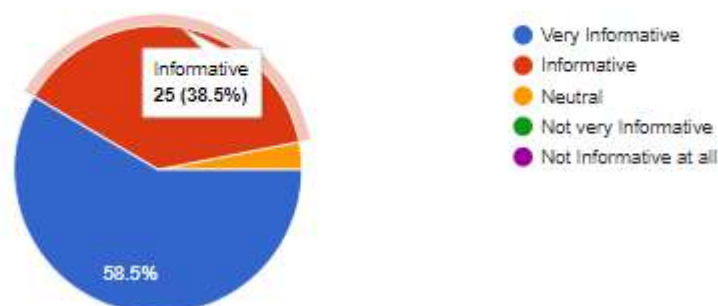

Traditional Vulnerability Assessment and Penetration Testing (VAPT) may fall short in providing comprehensive security coverage. Create an automated solution that goes beyond traditional VAPT by incorporating various attack tactics, techniques, and procedures. This tool should assess network architecture, simulate ransomware attacks, and provide organizations with a detailed understanding of their internal and external attack surfaces.

6. FEEDBACK BY THE PARTICIPANTS

Did you find the speakers talk informative and relevant ?

 Copy

65 responses

Were the presentations of the speakers engaging and easy to understand?

65 responses

How would you rate the overall organization of the event

65 responses

Has this event increased your interest in participating in hackathons

Good

Good

Degnity's

They said how we have to build skills for this types of competitions

What did you like most about this event

65 responses

It's a good time

The information shared I the event

They where good at motivating and it is also usefull

That they motivated us to participate in this hackathon

The talk of the guest

Motivating students nd delivering ideas

Good and informative and useful

Encouraging to participate in hackathon

Program was good instead of telling they can teach us practically and explain in different ways

What did you like most about this event

65 responses

- Good information
- The concept
- About there interviews experience and towards the use of hackathon and some examples of there real incident
- There interaction with us and motivation
- Intrest in participating in Hackathon
- It was very interactive, gained some knowledge about what Hackathon really is...
- The information about the program
- Their inspiring talks about hackathon
- The exposure

What did you like most about this event

65 responses

- Everything.
- Nice
- College
- motivation and opportunity
- Talks of pavan sir
- The way they encourage
- Gained some usefull knowledge
- Encourageing us
- Nice initiative

What did you like most about this event

65 responses

How the speaker motivated us to participate in Hackathon

Way of Teaching

I got knowledge something

The motivation and the information which darshan sir gave was awesome

Reason to participate in Hackathons

Motivated

It made us know about things we were not aware of. The session was useful.

About hackathon

Increase interest in hackathon

What did you like most about this event

65 responses

It is good

Every part

About The Contest Of Prize

Understanding what is hackaton

They given exact answers for my questions

sir was motivated us

Nice to communicate easily

2. BRIEF PROFILE OF THE RESOURCE PERSON

Mr. Santosh Chaluvadi, Founder and CEO Supraja Technologies

Mr. Santosh Chaluvadi is a dynamic and accomplished individual in the fields of Cyber Security, Digital Marketing, and Entrepreneurship. At the young age of 28, he has already established himself as one of India's efficient Cyber Security Analysts and a proficient Digital Marketer. His passion for cybersecurity is evident in his commitment to ensuring the safety and privacy of user data through hands-on security testing of websites.

As a digital marketing professional, he excels in content building, testing, and monetization of blogs. His entrepreneurial journey began early, with successful website development ventures and a keen focus on ethical hacking and cybersecurity. Notably, he has not only honed his skills but also imparted his knowledge to over 3500 students through workshops and seminars across Andhra Pradesh, earning him the distinction of being one of the youngest student trainers in India.

In 2016, he organized a groundbreaking 48-hour marathon event on Ethical Hacking and Cyber Security, earning a place in the Limca Book of Records. This achievement caught the attention of government officials, leading to invitations to conferences in New Delhi. His impact extends beyond academia, as multinational corporations now seek his expertise in enhancing the cybersecurity of their systems.

What sets him apart is his innovative contribution to combating film piracy. In 2019, he successfully developed a service to combat online film piracy, garnering appreciation from the Tollywood Film Industry. His vision for the future includes a comprehensive solution to eradicate piracy entirely by 2030.

Beyond his impressive professional journey, he has received numerous accolades, including a National Record in the Limca Book of Records, membership in the Steering Committee for the United Conference on Cyber Space, and recognition as a "Social Media Influencer - 2019." His dedication to law enforcement training, as acknowledged by Mr. Sridhar Garu, Sub-Inspector of Police, and his work in anti-piracy, acknowledged by Tollywood Film Industry client Mr. Saptagiri, reflects his broader impact on society.

4. BRIEF REPORT ON THE PROGRAM

A seminar on “Mastering The Future: Exploring Careers In AI Security, Data Protection, And Cybersecurity” was held at Sambhram Institute of Technology on 19th January 2024. Prof. Mamatha S delivered the Welcome address. Followed by the session by Mr. Santosh Chaluvadi. The topic "Mastering The Future: Exploring Careers In AI Security, Data Protection, And Cybersecurity" was extensively discussed in a one-hour session. Throughout the presentation, the audience was provided with an insightful overview of the rapidly evolving technological landscape and the paramount importance of security in the digital age. In the section dedicated to AI security, the audience was introduced to the definition and significance of AI security, along with an overview of AI-powered technologies and their applications. Risks and challenges associated with AI security were elaborated upon, followed by an exploration of career opportunities such as AI security researchers, ethical hackers, and AI system architects. Subsequently, the discussion shifted towards data protection, highlighting its significance in today's data-driven world. Principles of data protection and privacy, as well as regulatory frameworks such as GDPR and CCPA, were elucidated. Career opportunities in data protection, including roles such as data privacy officers, cybersecurity analysts, and forensic investigators, were also explored. In the section dedicated to cybersecurity, the audience gained an understanding of cybersecurity threats and risks, along with strategies for building robust cybersecurity defenses. Various career opportunities in cybersecurity, including security analysts, penetration testers, incident responders, and chief information security officers (CISOs), were discussed in detail. Furthermore, the audience was provided with insights into developing essential skills and qualifications for careers in security, emphasizing the importance of continuous learning and professional development. Resources and training programs available for aspiring security professionals were also highlighted. In conclusion, the audience was encouraged to pursue careers in AI security, data protection, and cybersecurity, and to embrace the future of security with enthusiasm and dedication. The session concluded with an open floor for questions and discussion, allowing for further engagement with the topic and addressing any queries or concerns raised by the audience.

5. FEEDBACK BY THE PARTICIPANTS

Did you find the context information and relevant to the seminar topic

 Copy

37 responses

Was the presentation engaging, and was the speaker easy to understand

1. INTRODUCTION

The main goal of the empowerment program is to inspire and educate students to be better prepared for the challenges of globalization. Student empowerment refers to the process of helping students develop the tools and resources they need to become independent learners. Empowering students involves creating a supportive and inclusive learning environment that fosters critical thinking, problem-solving, and creativity.

Department of Electronics & Communication Engineering conducted **Mini-project Exhibition Cum Competition** in Association With IETE Bangalore Centre and ECE department coordinator

Prof.S.Sowndeswari

Asst.Prof.ECE,SaIT

CHIEF PATRONS

Dr. K.V. Prasad

Dean – Research, SaIT

Dr. M.N. Sree Rangaraju

Dean – Academics, SaIT

Dr. H.G. Chandrakanth

Principal, SaIT

Shri. B.N. Nagaraj, IPS (Retd.)

CEO, Sambhram Group of Institutions

Mrs. Dhanya Nagaraj

Director, Sambhram Group of Institutions

Dr. V. Nagaraj

Chairman, Sambhram Group of Institutions

2. OBJECTIVE OF THE EVENT:

The objective of mini projects conducted in colleges is to offer students practical, hands-on experiences that complement their theoretical learning. These projects aim to develop students' technical skills, problem-solving abilities, teamwork, and communication skills. Additionally, mini projects provide students with exposure to project management principles and deadlines, preparing them for real-world challenges in their future careers. By encouraging innovation and creativity, these projects empower students to explore novel solutions to real-world problems while serving as a means of assessing their comprehension and performance within the course curriculum. Overall, mini projects play a vital role in fostering holistic development and bridging the gap between academic knowledge and practical application.

3. OUT COME FOR THE EVENT:

The outcome of a mini project event typically includes enhanced practical skills, improved problem-solving abilities, strengthened teamwork and communication, exposure to project management principles, fostering of creativity and innovation, and assessment of students comprehension and performance within the course curriculum. Overall, mini projects facilitate holistic development and bridge the gap between academic knowledge and practical application

4. ABOUT SAMBHRAM INSTITUTE OF TECHNOLOGY:

Sambhram Institute of Technology is an offshoot of the **Sambhram Group**, widely known for its services in education, health, housing, property development, hotels and resorts. Sambhram Education Trust is the educational arm of the Group and it runs several professional institutions in Bangalore, KGF in Karnataka state and Chittoor in Andhra Pradesh.

5. ABOUT DEPARTMENT OF ELECTRONICS & COMMUNICATION ENGINEERING:

The Department since its inception in 2001, always trying its level best to impart theoretical knowledge with proper blend of practical aspects to suite the real demand from the industry by not only covering fully the VTU syllabus but also beyond by conducting regular seminars , workshops, conferences, technical talks by eminent personalities from academia, R&D and

Industry which made us our students continuously getting good overall pass percentage and well placed in many national and international companies like INFOSYS, SONATA,TCS, WIPRO,TEXAS, INTEL etc.... and also our students are pursuing higher studies in best universities in the world. The Department regularly allowed students to undergo internship training and innovative projects in various industries, conducted various industrial tours, and other technical activities, the students are encouraged to do the students projects from their first year itself and pre final and final year projects in various public and private industries and R&D centres. Every year our student's projects are getting selected for funding by KSCST and other organizations.

6. TIMINGS OF THE PROGRAM:

11:00AM-1:00PM

7.ABOUT THE PROGRAM:

A mini project is a focused endeavor undertaken by students to apply theoretical knowledge into practical applications within a limited time frame. Its main goal is to provide hands-on learning experiences, foster problem-solving skills, encourage innovation, and enhance teamwork and communication abilities among students. These projects aim to bridge the gap between classroom learning and real-world scenarios, preparing students for future challenges in their respective fields. Ultimately, mini projects serve as platforms for students to explore, create, and demonstrate their understanding of course concepts in tangible ways.

8.AGENDA OF THE PROGRAM:

- INNOGRATION BY GUEST
- GUIDELINES BY DEANS
- PROJECT PRESENTATION
- DEMONSTRATION AND DISPLAY
- AUDIENCE ENGAGEMENT AND FEEDBACK
- IMPACT AND FUTURE DIRECTIONS
- ANNOUNCEMENT OF WINNERS

9.DETAILED REPORT:

“MINI-PROJECT EXHIBITION CUM COMPETITION AND PRIZE DISTRIBUTION”

In Association with

IETE (Institution of Electronics and Telecommunication Engineers)

Supported by:

Students chapters of IETE

Co-ordinators:

Dr.Ravishankar.C.V HOD, Dept.of ECE

Prof.Abhishek.D.G Asst.professor, Dept.of ECE

Prof.S.Sowndeswari Asst. Professor, Dept. Of ECE

Prof.Anupama Hongal Asst. Professor, Dept. Of ECE

Chief Guest:

Dr.K .V.Prasad, Dean-Research,SaIT

Dr. M.N. Sree Rangaraju, Dean-Academics, SaIT

Invited by:

Dr.Ravishankar.C.V, HOD-ECE

Prof.S.Sowndeswari Asst. Professor, Dept. of ECE

Prof.Abhishek.D.G Asst.professor, Dept.of ECE

Prof.Anupama Hongal Asst. Professor, Dept. of ECE

Patrons:

Dr. K.V. Prasad, Dean-Research, SaIT

Dr. M.N. Sree Rangaraju, Dean-Academics, SaIT

Dr. H G Chandrakanth, Principal- SaIT

Shri.B.N.Nagraj,IPS (Retd.),CEO,Sambhram Group of Institutions

Mrs.Dhanya Nagaraj,Director,Sambhram Group of Institutions

Dr.V.Nagraj,Chairman,Sambhram Group of Institutions

About the Event:

A mini project event typically involves students collaborating in small groups to undertake practical projects within a defined scope and time frame. The event aims to foster hands-on learning, creativity, problem-solving skills, and teamwork among participants. Students choose topics relevant to their field of study, allowing them to apply theoretical knowledge to real-world scenarios. The event often culminates in presentations, demonstrations, or exhibitions where students showcase their projects to peers, faculty, and sometimes external stakeholders. Mini project events serve as platforms for students to demonstrate their understanding, innovation, and practical skills, while also providing valuable learning

Venue: Department of ECE

13.BRIEF PROFILE / BIO DATA OF THE CHIEF GUEST

Mr. Harish N is currently serving as a CTO at Karunadu Technologies Pvt Ltd. His Vision is to Empower Unskilled Individual with knowledge, skills and technical competencies in the field of Information Technology and Embedded engineering which assist them to escalate as integrated individuals contributing to company's and Nation's growth. His vast industrial expertise and Innovative thought process helped to nurture a company in the year 2017. Mr. Harish N has a decade experience in leading Embedded and software industries leading from the front with various domains like IoT Systems, RF Communications, Image processing and generative AI frameworks. He has worked on many real time industrial projects to provide sustainable design and expertise to solve complex problems and provide the cost saving solution. He has a Teaching experience of decades in various Engineering colleges in various positions. He has published various IEEE papers journals.

14.BRIEF PROFILE / BIO DATA OF CHIEF GUEST:

Dr.E.Kavitha obtained her Ph.D., from Annamalai University in the field of Communication systems. Presently working as a professor and Head of the department in the department of Electronics and Telecommunication Engineering in Sir M. VIT, Bengaluru. She has over 20 years of teaching experience. She has a large number of publications to her credit and presented several papers in international conferences. Her areas of interests are wireless sensor networks, communication systems, wireless communications and networking.

1. INTRODUCTION

Skill Development training program on “Python and Data Analytics” is essential for the students of Department of CSE. The program provides the students with the necessary skill set which is required for job opportunities in future. It also helps the students in better understanding of the theoretical concepts through the practical implementation. such programs enhance the cognitive abilities, critical thinking skills, and problem-solving capabilities of students.

2. OBJECTIVES

- Acquire hands-on knowledge in ethical hacking, covering techniques like penetration testing and spotting vulnerabilities.
- Enhance skills in “Python and Data Analytics”, focusing on practical areas like network security, cryptography, and dealing with cyber incidents.
- Grasp the importance of ethical behavior in hacking and ensure compliance with legal standards.
- Engage in practical exercises and simulations to apply “Python and Data Analytics” concepts in real- life scenarios.
- Emphasize practical learning experiences to ensure a strong understanding of Python and Data Analytics concepts and their real-world applications.
- Promote responsible hacking practices that prioritize ethical considerations and adhere to legal standards.
- Cultivate a culture of continuous learning, ensuring adaptability to evolving challenges.
- Equip with the skills needed for various “Python and Data Analytics” roles, that help in better job opportunities.

3. OUTCOMES

- Enhanced “Python and Data Analytics” Skills: Participants gained a solid foundation in “Python and Data Analytics”, mastering essential skills to identify and address potential security threats.

- **Practical Hands-On Experience:** Through interactive sessions and real-world simulations, attendees acquired hands-on experience, allowing them to apply theoretical knowledge to practical scenarios.
- **Critical Thinking and Problem-Solving:** The program fostered critical thinking skills, empowering participants to analyze and solve complex “Python and Data Analytics” challenges.
- **Career Advancement:** The program provided a stepping stone to pursue careers in “Python and Data Analytics”. Participants gained insights into various “Python and Data Analytics” roles and learned about job opportunities in the field.
- **Ethical Hacking:** Equipped with ethical hacking skills, participants have understood the different domains in which ethical hacking can be performed to safeguard the digital space.

4. ABOUT SAMBHRAM INSTITUTE OF TECHNOLOGY

Sambhram Institute of Technology is an offshoot of the Sambhram Group, widely known for its services in education, health, housing, property development, hotels and resorts. Sambhram Education Trust is the educational arm of the Group and it runs several professional institutions in Bangalore, KGF in Karnataka state and Chittoor in Andhra Pradesh. Sait is a flagship Sambhram Institution started in 2001, promoted by entrepreneurs, bureaucrats and technocrats from a variety of backgrounds. Thanks to this strong management base and an equally strong resource base, Sait enjoys a premier status today in technology education. As a result, students from far flung areas of India and other countries are entering the portals of Sait in increasing numbers.

5. ABOUT THE DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

The Department of Computer Science & Engineering “Python and Data Analytics” is established in the year 2009 with a sanctioned intake of 240 students. The department has well-experienced faculty with expertise in “Python and Data Analytics”. It has state-of-art laboratories with licensed software and unlimited internet access. The Department conducts project competitions, hackathons, seminars, technical talks, and various other events to upgrade the skills of the students. Students get exposure to real-time projects, consultancy projects, and sponsored projects in the area of “Python and Data Analytics”. Students are encouraged to become part of Professional societies like IEEE, CSI, ISTE, etc. and participate in their events. Students are trained to conduct research and

Innovation in “Python and Data Analytics” and publish research papers in reputed conferences and journals. Students will be placed in leading national and multinational companies based on their performance and merit. Students are encouraged to go for higher studies and required guidance is provided by the department.

6. ABOUT THE SKILL DEVELOPMENT TRAINING PROGRAM ON ETHICAL HACKING & CYBERSECURITY

The Ethical Hacking and “Python and Data Analytics” Skill Development Program for students was a cutting- edge initiative aimed at preparing the next generation for the complex challenges of the digital era. Tailored to instill expertise in ethical hacking and “Python and Data Analytics” the program focused on hands-on, practical learning experiences. Through modules covering penetration testing, network security, cryptography, and incident response, students gained a comprehensive understanding of “Python and Data Analytics” principles. Experts in the field of “Python and Data Analytics” handled sessions, providing valuable insights into the latest threats and mitigation strategies. The program not only equipped students with technical skills but also emphasized the ethical aspects of “Python and Data Analytics” fostering a commitment to responsible and legal use of these capabilities. By engaging in simulated real-world scenarios students were able to understand the concepts of cyber security practically.

7. AGENDA OF THE PROGRAM

No	DATE	DAY	Session 1 9:00 am to 11:00 am	Session 2 11:15 am to 1:15 am	Session 3 2:00 pm to 4:00 pm	Session 4 4:10 pm to 6:00 pm
1.	18-11-2020	MONDAY	Introduction Python and Data Analytics to	The skill development training program	OSI and CIA/IP reference models	Installation of Wireshark
2.	19-11-2020	TUESDAY	The utilization of the Wire shark sniffing tool	functionalities in sniffing passwords and monitoring data	The practical aspect continued	dorks explored in categories like Drive, Related, and Site.
3.	20-11-2020	WEDNESDAY	Revision for previous class Data visualization	. To install Kali Linux on their systems	documents, and audio files for enhanced security	The session further explored the fundamentals of cryptography, emphasizing
4.	21-11-2020	THURSDAY	Revision for previous class Introduction to powerbi	The Participation certificats handling and datacleaning	and Union-based, and Out of Band SQL injections	alternative port number 8080 for HTTP services was highlighted
5.	22-11-2020	FRIDAY	Revision for previous class Missing Value Handling and data cleaning	techniques like bypassing OTP pages, spamming OTP	providing participants with valuable insights into legal aspects of "Python and Data Analytics".	The Participation certificats were distributed all student

layers, IP addresses, MAC addresses, VPN, NAT, and offered a comprehensive overview of HTTP response status codes, categorizing them into Informational, Success, Redirectional, Client-side Error, and Server-side Error codes.

In the subsequent session, the focus shifted towards practical, hands-on exercises. Participants were introduced to the fundamentals of sniffing, and assignments were distributed to reinforce the theoretical concepts previously discussed. The day concluded on a positive note, leaving attendees with a robust foundation for comprehending the intricate world of hacking, ethical considerations, and essential “Python and Data Analytics” principles.

DAY 2 – 16/11/20

Revision for previous class Pandas – 2 hours the second day of the skill development training program, participants had the opportunity to delve into hands-on practical exercises, particularly focusing on the utilization of the Wire shark sniffing tool. The session began with a comprehensive exploration of Wire shark basics, including tasks to understand its functionalities in sniffing passwords and monitoring data. The discussion expanded to cover two types of sniffing: active and passive, with an overview of associated tools. Following this, the participants delved into the realm of virtualization, discussing its benefits before proceeding to install Kali Linux on their systems. The practical aspect continued with an examination of Google Dorks, streamlining search processes and saving time, with specific dorks explored in categories like Drive, Related, and Site.

DAY 3 – 17/11/20

Revision for previous class Data visualization -2 hours. On the third day of the skill development training program, the participants' enthusiasm remained palpable as they delved into the intricacies of steganography—a technique employed to conceal information within images, documents, and audio files for enhanced security, particularly in safeguarding passwords. The discussion covered various types of steganography, including image steganography utilizing the Quick Stego tool with the .bmp extension, audio steganography using the Deep Sound tool with the .wav extension, video steganography, document steganography, and email steganography. The session further explored the fundamentals of cryptography, emphasizing its role in converting information into an unreadable format using diverse algorithms to secure confidential data. Key concepts such as encryption, the conversion of plaintext to ciphertext, and hashing, the transformation of characters into another value, were elucidated.

Types of encryption and practical demonstrations using tools like John the Ripper in Kali Linux for password cracking were also covered, fostering an interactive and engaging learning environment.

The students actively applied their newfound knowledge through hands-on tasks, enhancing their proficiency in tools and techniques discussed during the session. Practical tasks included bypassing the Windows lock screen, gaining insights into the use of cookies for session hijacking, and exploring the concept of SQL injection. The interactive nature of the day's activities not only facilitated a deeper understanding of “Python and Data Analytics” concepts but also made the learning experience enjoyable and memorable for all students.

DAY 4 – 18/11/20

Revision for previous class Introduction to powerbi – 2 hour. Prerequisite: Follow below link to install the required software <https://www.microsoft.com/enus/download/details.aspx?id=58494> .On the fourth day of the skill development training program, students delved deeper into the intricacies of SQL injection, exploring its types such as InBand SQL injections, categorized into Error-based and Union-based, and Out of Band SQL injections. The session expanded into the realm of digital forensics, where tools like FTK Imager were introduced, demonstrating their use in retrieving Gmail passwords and capturing RAM and memory images for duplicate imaging. The discussion also covered various malware threats, providing participants with essential definitions and insights into potential cyber risks. Notably, the alternative port number 8080 for HTTP services was highlighted, adding a layer of understanding about network configurations.

Following this, the sessions delved into practical procedures, including the JPS Virus Maker procedure, which involved disabling virus and threat protection, firewall and network protection, and app and browser control. Participants were then introduced to Wi-Fi adapter tools, emphasizing their chipset support for packet injection and monitor mode. Practical commands to view saved Wi-Fi passwords were shared, enhancing participants' hands-on knowledge. Discussions shifted to DOS (Denial of Service) and DDOS attacks, accompanied by insights into WiFi hacking tools such as Airmong-ng for monitoring packets, AirCrack-ng for checking handshakes, and Wifite. Overall, the day was marked by a blend of exploration, practical application, and learning about legal considerations in the field of “Python and Data Analytics”, creating a holistic and enjoyable learning environment.

DAY 5 – 19/11/20

Revision for previous class Missing Value Handling and data cleaning -2 hour .On the fifth day of the skill development training program, students engaged in practical exercises, experimenting with techniques like bypassing OTP pages, spamming OTP to mobile numbers, and collecting usernames and passwords using the Burp Suite tool as a proxy. The hands-on application of these techniques added a dynamic and interactive element to the learning experience. Simultaneously, the sessions touched upon, providing participants with valuable insights into legal aspects of “Python and Data Analytics”. An online quiz was conducted to check the understanding of the concepts by the students and the participation certificates were distributed to all the students.

DAY 6 – 20/11/20

Revision for previous classes Project Assignment .The skill development training program, students engaged in practical exercises, experimenting with techniques like bypassing OTP pages, spamming OTP to mobile numbers, and collecting usernames and passwords using the Burp Suite tool as a proxy. The hands-on application of these techniques added a dynamic and interactive element to the learning experience. Simultaneously, the sessions touched upon, providing participants

DAY 7 – 21/11/20

Revision for previous classes Project Assignment .

The sessions delved into practical procedures, including the JPS Virus Maker procedure,

The skill development training program, students engaged in practical exercises the sessions delved into practical procedures, including the JPS Virus Maker procedure, which involved disabling virus and threat protection, firewall and network protection, and app and browser control. Participants were then introduced to Wi-Fi adapter tools, emphasizing their chipset support for packet injection and monitor mode. Practical commands to view saved Wi-Fi passwords were shared, enhancing participants' hands-on knowledge. Discussions shifted to DOS (Denial of Service) and DDOS attacks, accompanied by insights into WiFi hacking tools such as Airmong-ng for monitoring packets,

DAY 8 – 22/11/20

Revision for previous classes Project Assignment .

The students actively applied their newfound knowledge through hands-on tasks, enhancing their proficiency in tools and techniques discussed during the session. Practical tasks included bypassing the Windows lock screen, gaining insights into the use of cookies for session

DAY 9 – 23/11/20

Revision for previous classes Project Assignment .

The hands-on application of these techniques added a dynamic and interactive element to the learning experience. Simultaneously, the sessions touched upon, providing participants with valuable insights into legal aspects of “Python and Data Analytics”. An online quiz was conducted to check the understanding of the concepts by the students and the participation certificates were distributed to all the students.

10. LIST OF PARTICIPANTS(A B C D)

15. BRIEF PROFILE OF THE RESOURCE PERSONS

Mr. Santosh Chaluvadi, Founder and CEO Supraja Technologies

Mr. Santosh Chaluvadi is a dynamic and accomplished individual in the fields of Cyber Security, Digital Marketing, and Entrepreneurship. At the young age of 28, he has already established himself as one of India's efficient Cyber Security Analysts and a proficient Digital Marketer. His passion for cybersecurity is evident in his commitment to ensuring the safety and privacy of user data through hands-on security testing of websites.

As a digital marketing professional, he excels in content building, testing, and monetization of blogs. His entrepreneurial journey began early, with successful website development ventures and a keen focus on ethical hacking and “Python and Data Analytics”. Notably, he has not only honed his skills but also imparted his knowledge to over 3500 students through workshops and seminars across Andhra Pradesh, earning him the distinction of being one of the youngest student trainers in India.

In 2016, he organized a groundbreaking 48-hour marathon event on Ethical Hacking and Cyber Security, earning a place in the Limca Book of Records. This achievement caught the attention of government officials, leading to invitations to conferences in New Delhi. His impact extends beyond academia, as multinational corporations now seek his expertise in enhancing the “Python and Data Analytics” of their systems.

What sets him apart is his innovative contribution to combating film piracy. In 2019, he successfully developed a service to combat online film piracy, garnering appreciation from the Tollywood Film Industry. His vision for the future includes a comprehensive solution to eradicate piracy entirely by 2030.

Beyond his impressive professional journey, he has received numerous accolades, including a National Record in the Limca Book of Records, membership in the Steering Committee for the United Conference on Cyber Space, and recognition as a "Social Media Influencer - 2019." His dedication to law enforcement training, as acknowledged by Mr. Sridhar Garu, Sub-Inspector of Police, and his work in anti-piracy, acknowledged by Tollywood Film Industry client Mr. Saptagiri, reflects his broader impact on society.

Respected Sir,

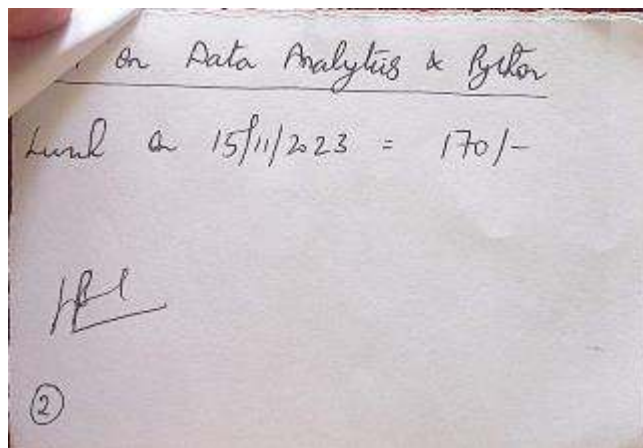

Sub: Proposal for Skill Development Course in Cybersecurity for III Semester Students of CSE(Cyber Security)

As per VTU 2022 Scheme and syllabus, skill lab development courses are an integral part of it. Therefore, the Department of CSE(Cyber Security) has proposed to conduct a 5-day Skill Development Course for CSE(Cybersecurity) Students of III semester (2022-23 batch) from November 20th to November 25th. Experienced professionals and experts in cybersecurity will be conducting the sessions ensuring the delivery of high-quality content. The course will cover essential topics in cybersecurity, including but not limited to: Introduction to Cybersecurity, Network Security, Web Application Security, Ethical Hacking Techniques, Incident Response and Management. The summary of three proposals for 5 days 30 hours sessions are as given below:

Sl No.	Company Name	Mandatory Requirement	Particulars	Cost	Total amount
1.	Supraja Technologies	Internet (Compulsory)	Training Cost per student Rs. 600 x 60 students	Rs. 36,000	Rs. 54,000 (Fifty-Four Thousand Rupees)
			Food Expenses Rs. 300 x 2 (resource persons) x 5 days	Rs. 3000	
			Accommodation Expenses Rs. 2000 x 5 days – (for two resource persons on a sharing basis)	Rs. 10,000	
			Travel Expenses (for 2 resource persons To and Fro)	Rs. 5000	

Approved Rs. 54,000/-

2. BRIEF PROFILE OF THE RESOURCE PERSONS

Advocate Sanjeet Mishra

Advocate Sanjeet Mishra LLM(CYBER LAW &IPR) stands as a towering figure at the intersection of law and technology, wielding expertise in both realms with unparalleled distinction. With a robust background in Cyber Law and Intellectual Property Rights (IPR), he has established himself as a formidable force in the legal arena, specializing in the intricate nuances of cyber legislation and intellectual property protection. His prowess extends beyond the confines of traditional legal practice, delving into the intricate realm of Cyber Forensics and Cyber Security. As a recognized expert in these fields, Advocate Sanjeet Mishra brings a unique blend of legal acumen and technical proficiency to the table. His extensive repertoire of certifications, including Ethical Hacking, Private Forensics Investigation, Cyber Crime Investigation, and Penetration Testing, underscores his commitment to mastering the technical intricacies of cybercrime detection and prevention. Furthermore, Advocate Sanjeet Mishra's expertise transcends mere theoretical knowledge, as evidenced by his practical skills in IT auditing and bug hunting. His comprehensive understanding of cybersecurity frameworks and methodologies positions him as a sought-after consultant and advisor in matters pertaining to digital security. In addition to his formidable technical prowess, Advocate Sanjeet Mishra is also a seasoned educator, certified as an instructor by renowned entities such as EC-COUNCIL and MILE2 CYBER SECURITY. His passion for knowledge dissemination and commitment to nurturing the next generation of cybersecurity professionals make him a revered figure in the academic sphere. Beyond his professional accolades, Advocate Sanjeet Mishra's reputation as a captivating speaker further solidifies his status as a luminary in the fields of law and technology. His ability to elucidate complex concepts with clarity and eloquence has earned him accolades from audiences worldwide, cementing his legacy as a thought leader and influencer in the ever-evolving landscape of cybersecurity and intellectual property rights.

3. BRIEF REPORT ON THE PROGRAM

The Department of Computer Science and Engineering (CSE) and CSE (Cyber Security) at Sambhram Institute of Technology, Bengaluru, organized an enlightening online webinar titled "Emerging Trends in Cybersecurity" on March 27th, 2023. Adv. Sanjeet Mishra, representing Career Technology Cyber Security India Pvt. Ltd., delivered a thought-provoking presentation that delved into the dynamic shifts occurring within the cybersecurity domain. The webinar served as a platform to explore the evolving nature of cyber threats and the innovative strategies employed to mitigate risks effectively. Adv. Sanjeet Mishra captivated the audience's attention by shedding light on the need for proactive defense mechanisms in response to the escalating complexity of cyber threats. Unlike traditional reactive approaches, which often prove insufficient against sophisticated attacks, proactive defense mechanisms enable organizations to anticipate and counter threats before they manifest. A significant trend highlighted during the webinar was the increasing reliance on artificial intelligence (AI) and machine learning (ML) algorithms to bolster security postures. Mishra elucidated how these advanced technologies empower cybersecurity measures to adapt dynamically and detect anomalies in real-time, thereby enhancing the efficacy of threat detection and response strategies. Moreover, the integration of DevSecOps practices emerged as a pivotal focus area within cybersecurity frameworks. Mishra emphasized the significance of embedding security measures throughout the software development lifecycle, fostering a culture of collaboration between development and security teams. By implementing security measures from the outset, organizations can identify and remediate vulnerabilities early in the development process, thereby minimizing security risks and ensuring the creation of robust and secure digital infrastructures. Throughout the webinar, Mishra underscored the critical importance of embracing these emerging trends to stay ahead of the curve in an increasingly complex and dynamic threat landscape. By adopting proactive defense mechanisms, leveraging advanced technologies such as AI and ML, and integrating security into the development process, organizations can enhance their cybersecurity posture and effectively safeguard against evolving cyber threats. In summary, the online webinar on "Emerging Trends in Cybersecurity" facilitated a deep dive into the transformative shifts occurring within the cybersecurity landscape. Adv. Sanjeet Mishra's insightful presentation provided attendees with valuable insights and actionable strategies to navigate the ever-evolving threat landscape and bolster their cybersecurity defenses effectively.

3. BRIEF REPORT ON THE PROGRAM

On January 24th, 2024, Sambhram Institute of Technology hosted a vibrant celebration in observance of International Education Day. The ceremony commenced with a warm welcome address by Dr. Sanjeetha R, the Head of the Department of Cyber Security (CSE) and the Head of the Equal Opportunity Cell. Following the welcome address, Dr. Sreerangaraju, Dean of Academics, delivered an enlightening overview of the significance of International Day of Education. He underscored the pivotal role of education in individuals' lives. Dr. Ravishankar C V, the Head of the Department of Electronics and Communication Engineering (ECE), discussed how the education standards need to be improved. Mr. Chandrashekar, Chief Librarian of SaIT, discussed the online courses offered by the National Digital Library and encouraged students to make use of them. The main points delivered by them were that education plays a paramount role in shaping individuals' lives and societies' futures by imparting knowledge, skills, and values essential for personal and collective development. Through education, individuals acquire the necessary tools to navigate the complexities of the modern world, make informed decisions, and contribute meaningfully to their communities. Beyond academic learning, education fosters critical thinking, creativity, and problem-solving abilities, empowering individuals to adapt to change, overcome challenges, and seize opportunities for growth and advancement. Moreover, education serves as a catalyst for social mobility and economic empowerment, breaking the cycle of poverty, reducing inequalities, and unlocking pathways to prosperity for individuals and entire nations. Furthermore, education is a fundamental human right that underpins other rights and freedoms, including the right to health, employment, and participation in civic life. Access to quality education enables individuals to exercise agency, advocate for their rights, and engage as active citizens in democratic societies. Moreover, education promotes tolerance, respect for diversity, and the appreciation of different cultures and perspectives, laying the foundation for peaceful coexistence and mutual understanding in an increasingly interconnected world. Ultimately, the importance of education extends far beyond the classroom, serving as a cornerstone of progress, equity, and social justice in societies worldwide.

Followed by them, students shared their perspectives on the importance of education. In his speech, Thanish Prabhakar from 3rd Sem Dept. of CSE (Cyber Security) eloquently emphasized the paramount importance of education in our lives and society. He portrayed education as more than just acquiring knowledge; it was the foundation for shaping our futures and the world around us. Thanish highlighted education as a catalyst for progress, empowering individuals with the tools to navigate the complexities of the modern world. Furthermore, he stressed that education was a lifelong journey that fostered critical thinking, innovation, and adaptability. He emphasized the role of education in promoting understanding, tolerance, and empathy, thus fostering a harmonious society. Thanish also underscored education as a powerful force for social and economic mobility, breaking down barriers and offering opportunities to all individuals.

1. INTRODUCTION

Skill Development training program on Ethical hacking and cybersecurity is essential for the students of Department of CSE (Cyber Security). The program provides the students with the necessary skill set which is required for job opportunities in future. It also helps the students in better understanding of the theoretical concepts through the practical implementation. such programs enhance the cognitive abilities, critical thinking skills, and problem-solving capabilities of students.

2. OBJECTIVES

- Acquire hands-on knowledge in ethical hacking, covering techniques like penetration testing and spotting vulnerabilities.
- Enhance skills in cybersecurity, focusing on practical areas like network security, cryptography, and dealing with cyber incidents.
- Grasp the importance of ethical behavior in hacking and ensure compliance with legal standards.
- Engage in practical exercises and simulations to apply cybersecurity concepts in real-life scenarios.
- Emphasize practical learning experiences to ensure a strong understanding of cybersecurity concepts and their real-world applications.
- Promote responsible hacking practices that prioritize ethical considerations and adhere to legal standards.
- Cultivate a culture of continuous learning, ensuring adaptability to evolving cybersecurity challenges.
- Equip with the skills needed for various cybersecurity roles, that help in better job opportunities.

3. OUTCOMES

- Enhanced Cybersecurity Skills: Participants gained a solid foundation in ethical hacking and cybersecurity, mastering essential skills to identify and address potential security threats.

- **Practical Hands-On Experience:** Through interactive sessions and real-world simulations, attendees acquired hands-on experience, allowing them to apply theoretical knowledge to practical scenarios.
- **Critical Thinking and Problem-Solving:** The program fostered critical thinking skills, empowering participants to analyze and solve complex cybersecurity challenges.
- **Career Advancement:** The program provided a stepping stone to pursue careers in cybersecurity. Participants gained insights into various cybersecurity roles and learned about job opportunities in the field.
- **Ethical Hacking:** Equipped with ethical hacking skills, participants have understood the different domains in which ethical hacking can be performed to safeguard the digital space.

4. ABOUT SAMBHRAM INSTITUTE OF TECHNOLOGY

Sambhram Institute of Technology is an offshoot of the Sambhram Group, widely known for its services in education, health, housing, property development, hotels and resorts. Sambhram Education Trust is the educational arm of the Group and it runs several professional institutions in Bangalore, KGF in Karnataka state and Chittoor in Andhra Pradesh. SaIT is a flagship Sambhram Institution started in 2001, promoted by entrepreneurs, bureaucrats and technocrats from a variety of backgrounds. Thanks to this strong management base and an equally strong resource base, SaIT enjoys a premier status today in technology education. As a result, students from far flung areas of India and other countries are entering the portals of SaIT in increasing numbers.

5. ABOUT THE DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING (CYBER SECURITY)

The Department of Computer Science & Engineering (Cybersecurity) is established in the year 2022 with a sanctioned intake of 60 students. The department has well-experienced faculty with expertise in cybersecurity. It has state-of-art laboratories with licensed software and unlimited internet access. The Department conducts project competitions, hackathons, seminars, technical talks, and various other events to upgrade the skills of the students. Students get exposure to real-time projects, consultancy projects, and sponsored projects in the area of cybersecurity. Students are encouraged to become part of Professional societies like IEEE, CSI, ISTE, etc. and participate in their events. Students are trained to conduct research and

innovation in cybersecurity and publish research papers in reputed conferences and journals. Students will be placed in leading national and multinational companies based on their performance and merit. Students are encouraged to go for higher studies and required guidance is provided by the department.

6. ABOUT THE SKILL DEVELOPMENT TRAINING PROGRAM ON ETHICAL HACKING & CYBERSECURITY

The Ethical Hacking and Cybersecurity Skill Development Program for students was a cutting-edge initiative aimed at preparing the next generation for the complex challenges of the digital era. Tailored to instill expertise in ethical hacking and cybersecurity, the program focused on hands-on, practical learning experiences. Through modules covering penetration testing, network security, cryptography, and incident response, students gained a comprehensive understanding of cybersecurity principles. Experts in the field of cybersecurity handled sessions, providing valuable insights into the latest threats and mitigation strategies. The program not only equipped students with technical skills but also emphasized the ethical aspects of cybersecurity, fostering a commitment to responsible and legal use of these capabilities. By engaging in simulated real-world scenarios students were able to understand the concepts of cyber security practically.

7. AGENDA OF THE PROGRAM

No	DATE	DAY	Session 1 9:00 am to 11:00 am	Session 2 11:15 am to 1:15 am	Session 3 2:00 pm to 4:00 pm	Session 4 4:10 pm to 6:00 pm
1.	18-12-2023	MONDAY	Introduction to Hacking, Types of hacking, & hacking laws	Malware, Trojan Horse, Vulnerabilities, exploits	OSI and TCP/IP reference models	Installation of Wireshark
2.	19-12-2023	TUESDAY	Packet sniffing using wireshark	Installation of kali linux in Oracle Virtual Box	Active and passive packet sniffing	Google Dorks, hackers web browser - shodan & e-mail spoofing
3.	20-12-2023	WEDNESDAY	Steganography Installation of Stignocreator	Breaking steganography audio, images and video to extract the hidden information.	Hashing – SHA, MD5, Encryption & Decryption – AES, DES	WAPT vulnerabilities like SQL injection, session hijacking
4.	21-12-2023	THURSDAY	Types of SQL injections – SQLite, SQL database, In-band SQL and out band SQL	Malware threats and types of malwares	AntiVirus, Types of antivirus – McAfee, K7 Security +	Hacking techniques - DOS, DDOS, OTP bypass, Wifi password retrieving, etc
5.	22-12-2023	FRIDAY	Online Exams and Certificate distribution	Creation of viruses for Windows OS using Virus Creator	SMS bombing using Burp Suite	WAPT on Burp Suite

9. DETAILED REPORT –DAY WISE

DAY 1 – 18/12/23

On the first day of the skill development training program, the students were guided through the intricacies of hacking as the speaker meticulously outlined the five phases: Information Gathering, Scanning, Gaining Access, Maintaining Access, and Covering Tracks. Notably, a crucial addition in the realm of ethical hacking was highlighted – the Reporting phase, emphasizing the significance of transparency and communication in ethical cybersecurity practices. The subsequent segment of the session delved into foundational cybersecurity concepts, commencing with an exploration of the CIA triad. The discussion seamlessly transitioned to cover cybersecurity exams, the Cyber Kill Chain concept, and networking essentials, including the classification of ports into Well Known Ports, Registered Ports, and Private/Dynamic/Temporary Ports. The speaker provided insights into OSI Reference Model

layers, IP addresses, MAC addresses, VPN, NAT, and offered a comprehensive overview of HTTP response status codes, categorizing them into Informational, Success, Redirectional, Client-side Error, and Server-side Error codes.

In the subsequent session, the focus shifted towards practical, hands-on exercises. Participants were introduced to the fundamentals of sniffing, and assignments were distributed to reinforce the theoretical concepts previously discussed. The day concluded on a positive note, leaving attendees with a robust foundation for comprehending the intricate world of hacking, ethical considerations, and essential cybersecurity principles.

DAY 2 – 19/12/23

On the second day of the skill development training program, participants had the opportunity to delve into hands-on practical exercises, particularly focusing on the utilization of the Wireshark sniffing tool. The session began with a comprehensive exploration of Wireshark basics, including tasks to understand its functionalities in sniffing passwords and monitoring data. The discussion expanded to cover two types of sniffing: active and passive, with an overview of associated tools. Following this, the participants delved into the realm of virtualization, discussing its benefits before proceeding to install Kali Linux on their systems. The practical aspect continued with an examination of Google Dorks, streamlining search processes and saving time, with specific dorks explored in categories like Drive, Related, and Site.

The sessions further explored social engineering, a crucial aspect for both cybersecurity professionals and hackers alike. Participants gained insights into various social engineering tools such as phishing, vishing, smishing, spearfishing, IDN homograph attacks, price tampering, and web application penetration test modules. A notable focus was placed on Pyphisher, a social engineering tool employed for creating fake login websites. Practical tasks included accessing compromised webcams, exploring the hacker-centric search engine Shodan, and learning to trace the location of specific IP addresses. The emphasis on practical applications served to enhance participants' proficiency in Wireshark and various cybersecurity techniques, making the second day an immersive and engaging learning experience.

DAY 3 – 20/12/23

On the third day of the skill development training program, the participants' enthusiasm remained palpable as they delved into the intricacies of steganography—a technique employed to conceal information within images, documents, and audio files for enhanced security, particularly in safeguarding passwords. The discussion covered various types of steganography, including image steganography utilizing the Quick Stego tool with the .bmp extension, audio steganography using the Deep Sound tool with the .wav extension, video steganography, document steganography, and email steganography. The session further explored the fundamentals of cryptography, emphasizing its role in converting information into an unreadable format using diverse algorithms to secure confidential data. Key concepts such as encryption, the conversion of plaintext to ciphertext, and hashing, the transformation of characters into another value, were elucidated. Types of encryption and practical demonstrations using tools like John the Ripper in Kali Linux for password cracking were also covered, fostering an interactive and engaging learning environment.

The students actively applied their newfound knowledge through hands-on tasks, enhancing their proficiency in tools and techniques discussed during the session. Practical tasks included bypassing the Windows lock screen, gaining insights into the use of cookies for session hijacking, and exploring the concept of SQL injection. The interactive nature of the day's activities not only facilitated a deeper understanding of cybersecurity concepts but also made the learning experience enjoyable and memorable for all students.

DAY 4 – 21/12/23

On the fourth day of the skill development training program, students delved deeper into the intricacies of SQL injection, exploring its types such as InBand SQL injections, categorized into Error-based and Union-based, and Out of Band SQL injections. The session expanded into the realm of digital forensics, where tools like FTK Imager were introduced, demonstrating their use in retrieving Gmail passwords and capturing RAM and memory images for duplicate imaging. The discussion also covered various malware threats, providing participants with essential definitions and insights into potential cyber risks. Notably, the alternative port number 8080 for HTTP services was highlighted, adding a layer of understanding about network configurations.

Following this, the sessions delved into practical procedures, including the JPS Virus Maker procedure, which involved disabling virus and threat protection, firewall and network protection, and app and browser control. Participants were then introduced to WiFi adapter tools, emphasizing their chipset support for packet injection and monitor mode. Practical commands to view saved WiFi passwords were shared, enhancing participants' hands-on knowledge. Discussions shifted to DOS (Denial of Service) and DDOS attacks, accompanied by insights into WiFi hacking tools such as Airmong-ng for monitoring packets, AirCrack-ng for checking handshakes, and Wifite. Overall, the day was marked by a blend of exploration, practical application, and learning about legal considerations in the field of cybersecurity, creating a holistic and enjoyable learning environment.

DAY 5 – 22/12/23

On the fifth day of the skill development training program, students engaged in practical exercises, experimenting with techniques like bypassing OTP pages, spamming OTP to mobile numbers, and collecting usernames and passwords using the Burp Suite tool as a proxy. The hands-on application of these techniques added a dynamic and interactive element to the learning experience. Simultaneously, the sessions touched upon cyber laws, providing participants with valuable insights into legal aspects of cybersecurity. An online quiz was conducted to check the understanding of the concepts by the students and the participation certificates were distributed to all the students.

15. BRIEF PROFILE OF THE RESOURCE PERSONS

Mr. Santosh Chaluvadi, Founder and CEO Supraja Technologies

Mr. Santosh Chaluvadi is a dynamic and accomplished individual in the fields of Cyber Security, Digital Marketing, and Entrepreneurship. At the young age of 28, he has already established himself as one of India's efficient Cyber Security Analysts and a proficient Digital Marketer. His passion for cybersecurity is evident in his commitment to ensuring the safety and privacy of user data through hands-on security testing of websites.

As a digital marketing professional, he excels in content building, testing, and monetization of blogs. His entrepreneurial journey began early, with successful website development ventures and a keen focus on ethical hacking and cybersecurity. Notably, he has not only honed his skills but also imparted his knowledge to over 3500 students through workshops and seminars across Andhra Pradesh, earning him the distinction of being one of the youngest student trainers in India.

In 2016, he organized a groundbreaking 48-hour marathon event on Ethical Hacking and Cyber Security, earning a place in the Limca Book of Records. This achievement caught the attention of government officials, leading to invitations to conferences in New Delhi. His impact extends beyond academia, as multinational corporations now seek his expertise in enhancing the cybersecurity of their systems.

What sets him apart is his innovative contribution to combating film piracy. In 2019, he successfully developed a service to combat online film piracy, garnering appreciation from the Tollywood Film Industry. His vision for the future includes a comprehensive solution to eradicate piracy entirely by 2030.

Beyond his impressive professional journey, he has received numerous accolades, including a National Record in the Limca Book of Records, membership in the Steering Committee for the United Conference on Cyber Space, and recognition as a "Social Media Influencer - 2019." His dedication to law enforcement training, as acknowledged by Mr. Sridhar Garu, Sub-Inspector of Police, and his work in anti-piracy, acknowledged by Tollywood Film Industry client Mr. Saptagiri, reflects his broader impact on society.

Mr. Krishna, Security Analyst, Supraja Technologies

Krishna, an ethical hacker and founder of Supraja Technologies, embarked on a remarkable journey in the field of cybersecurity. After a stint in various MNCs and the establishment of his own startup, Krishna's dedication to cybersecurity education and training became the cornerstone of his success. His pioneering efforts, such as organizing a record-setting 48-hour marathon event on Ethical Hacking and Cyber Security, caught the attention of the Government of India and led to invitations for conferences in New Delhi. Recognizing the growing cyber threats associated with advancing technologies, Krishna envisioned and established an in-house center of excellence for IT security, training over 25,000 individuals online and offline. His expertise and ethical hacking skills contributed to the development of robust cybersecurity infrastructure in India, earning him trust from over 300 global clients, including Fortune 500 companies, across various industries.

Under Krishna's leadership, Supraja Technologies has conducted security audits and assessments for major players in telecommunications, banking, oil and natural gas, automobiles, and more. The company's commitment to innovation and client satisfaction has propelled its growth, with the clients spanning multiple countries. In the ever-evolving landscape of cybersecurity, Krishna and his team at Supraja Technologies continue to be at the forefront, striving to fortify the cyberspace and create a safe online environment. As the Security Analyst & Head at Red Teaming Division, Krishna remains deeply passionate about his role, embodying the spirit of the inquisitive hacker dedicated to researching and developing cybersecurity solutions, fulfilling what he considers his sole purpose in life.

From,
HoD CSE(CY)
Sait, Bengaluru

Respected Sir,

Sub: Proposal for Skill Development Course in Cybersecurity for III Semester Students of CSE(Cyber Security)

As per VTU 2022 Scheme and syllabus, skill lab development courses are an integral part of it. Therefore, the Department of CSE(Cyber Security) has proposed to conduct a 5-day Skill Development Course for CSE(Cybersecurity) Students of III semester (2022-23 batch) from November 20th to November 25th. Experienced professionals and experts in cybersecurity will be conducting the sessions ensuring the delivery of high-quality content. The course will cover essential topics in cybersecurity, including but not limited to: Introduction to Cybersecurity, Network Security, Web Application Security, Ethical Hacking Techniques, Incident Response and Management. The summary of three proposals for 5 days 30 hours sessions are as given below:

Sl No.	Company Name	Mandatory Requirement	Particulars	Cost	Total amount
1.	Supraja Technologies	Internet (Compulsory)	Training Cost per student Rs. 600 x 60 students	Rs. 36,000	Rs. 54,000 (Fifty-Four Thousand Rupees)
			Food Expenses Rs. 300 x 2 (resource persons) x 5 days	Rs. 3000	
			Accommodation Expenses Rs. 2000 x 5 days— (for two resource persons on a sharing basis)	Rs. 10,000	
			Travel Expenses (for 2 resource persons To and Fro)	Rs. 5000	

Approved Rs. 54,000/-
27/11/23

2. BRIEF PROFILE OF THE RESOURCE PERSON

Mr. Santosh Rebello

Mr. Santosh Rebello is a seasoned professional with extensive expertise in the Salesforce ecosystem. With years of experience in the field, he has become a trusted mentor and advisor for individuals seeking to advance their careers in technology and innovation. Mr. Rebello's passion for empowering others to achieve their professional goals is evident in his engaging sessions, where he shares valuable insights and practical guidance on navigating the dynamic landscape of career development in the digital age. Leveraging his deep understanding of Salesforce's significance in driving innovation and transformation, Mr. Rebello inspires participants to explore the diverse career opportunities within the Salesforce ecosystem, encouraging them to embark on a journey of skill acquisition and professional growth. Through his interactive and participatory approach to learning, Mr. Rebello fosters an environment of collaboration and exploration, enabling individuals to harness the transformative potential of Salesforce and thrive in today's competitive job market.

4. BRIEF REPORT ON THE PROGRAM

An online talk on “Learn In-Demand Skills, Connect And Build Your Career Path With Salesforce” was conducted at Sambhram Institute of Technology on 17th April 2024. The session, delivered by Mr. Santosh Rebello, a seasoned professional with extensive experience in the Salesforce ecosystem, enlightened participants on the transformative potential of acquiring in-demand skills and building a career path with Salesforce. Mr. Rebello's expertise and insights provided attendees with valuable guidance on navigating the dynamic landscape of career development in the digital age. Mr. Santosh Rebello commenced the session by emphasizing the importance of staying relevant in today's competitive job market. With the rapid advancement of technology, acquiring in-demand skills has become imperative for professionals seeking to enhance their career prospects. Through engaging anecdotes and real-world examples, Mr. Rebello underscored the significance of Salesforce as a leading platform driving innovation in customer relationship

management and digital transformation. Throughout the session, Mr. Rebello shared key insights into the benefits of learning Salesforce and leveraging its ecosystem to unlock career opportunities. He highlighted Salesforce's prominence in the industry, citing its widespread adoption by businesses worldwide and the resulting demand for skilled professionals. Furthermore, Mr. Rebello elaborated on the diverse career paths available within the Salesforce ecosystem, ranging from administration and development to consultancy and architecture. He encouraged participants to explore these avenues and tailor their learning journey to align with their career aspirations. Mr. Santosh Rebello's session was characterized by an interactive and participatory learning approach, allowing attendees to actively engage with the content and ask questions. Leveraging his extensive knowledge and practical experience, Mr. Rebello addressed queries, clarified doubts, and provided personalized guidance to participants. Moreover, he introduced attendees to valuable resources such as Trailhead, Salesforce's online learning platform, enabling them to embark on their learning journey with confidence and enthusiasm.

In a proactive effort to empower students with practical skills and industry-recognized certifications, Mr. Santosh Rebello guided students through the process of opening a Trailhead account and completing tasks to acquire badges. Recognizing the significance of hands-on experience and credentials in today's competitive job market, Mr. Rebello emphasized the value of Trailhead, Salesforce's online learning platform, as a comprehensive resource for skill development and certification attainment. Mr. Rebello's guidance began with a detailed walkthrough of the Trailhead registration process, ensuring that students could easily create their accounts and access the platform's vast array of learning modules. With step-by-step instructions and personalized assistance, students gained confidence in navigating Trailhead and exploring its diverse learning paths.

Moreover, Mr. Rebello curated a list of recommended tasks and modules aligned with students' career interests and aspirations. By selecting relevant trails and modules, students embarked on a journey of skill acquisition tailored to their individual goals. Mr. Rebello provided ongoing support and guidance as students progressed through the tasks, offering insights and tips to optimize their learning experience and maximize their badge acquisition. Through Mr. Santosh Rebello's mentorship and support, students embraced the opportunity to enhance their knowledge and expertise in Salesforce technologies. By completing tasks and earning badges on Trailhead, students not only acquired valuable skills but also validated their proficiency through industry-recognized certifications. Mr. Rebello's commitment to empowering students with practical skills and professional certifications underscores his dedication to fostering their success in the ever-evolving landscape of technology and innovation. In conclusion, Mr. Santosh Rebello's session served as a catalyst for empowering career growth and development through Salesforce. His insights, delivered with passion and expertise, inspired participants to embark on a journey of skill acquisition and professional advancement. As individuals embrace the opportunity to learn in-demand skills, connect with industry peers, and build their career paths with Salesforce, they are poised to thrive in the ever-evolving landscape of technology and innovation.

5. FEEDBACK BY THE PARTICIPANTS

On the scale below, please rate your level of agreement with the following statements about the presentation. I knew a lot about this topic before the presentation

46 responses

My time was well served by this presentation.

46 responses

I enjoyed this presentation

46 responses

I enjoyed learning about the content provided.

46 responses

I left feeling like I wanted to learn more about the topic presented.

46 responses

I could easily hear and understand the presenter at all times.

46 responses

The presenter seemed well organized.

46 responses

The presenter was able to answer questions thoroughly and efficiently.

46 responses

What are the key take aways from this technical talk

46 responses

It was very good

Found better tips to study

Keeping password stronger with all the combination.

Sir explained very clearly all the points

Importance of cyber security and basics of it

Different types of weaknesses that can be exploited and that we should be more aware and learn more about how to protect ourselves.

Got to know about free trainings to improve our skills

Would you be interested in attending more such talks?

1. INTRODUCTION

Intra-Collegiate Innovative Idea Contest was organized by the Department of Electronics & Communication Engineering on 21/12/2022 under Alumni Association-SaIT & Institution's Innovation Council (IIC) in association with IETE, ISTE, IEEE & EWB Student Chapters of SaIT jointly supported by IETE-Bangalore section.

2. OBJECTIVE OF THE EVENT

Our aim through this program is to create & provide a platform for enthusiastic students to share their ideas in order to apply them in the practical world.

3. OUTCOME OF THE EVENT

We also thank the management, Principal, Dean-Research and Academics and HoDs of all the departments for their guidance and support for the smooth conduction of the event. The complete event was organized and hosted by Prof. S. Sowndeswari and Prof. Manjula G. Hegde, Assistant Professors, Department of ECE, SaIT.

4. ABOUT SAMBHRAM INSTITUTE OF TECHNOLOGY

Sambhram Institute of Technology is an offshoot of the **Sambhram Group**, widely known for its services in education, health, housing, property development, hotels and resorts. Sambhram Education Trust is the educational arm of the Group and it runs several professional institutions in Bangalore, KGF in Karnataka state and Chittoor in Andhra Pradesh.

5. ABOUT DEPARTMENT OF ELECTRONICS & COMMUNICATION ENGINEERING

Electronics and Communications Engineering (ECE) involves researching, designing, developing, and testing electronic equipment used in various systems. Electronics and Communications engineers also conceptualise and oversee the manufacturing of communications and broadcast systems. This stream of engineering deals with analogue transmission, basic electronics, microprocessors, solid-state devices, digital and analogue communication, analogue integrated circuits, microwave engineering, satellite communication, antennae, and wave progression. It also deals with the manufacturing of electronic devices, circuits, and communications equipment. Dr. K V Prasad (Dean - Research), Mr. Vishnu Prasad (State Head - ICT Academy) and Dr. Ravishankar C V (HoD

- ECE dept.), told participants how to utilize the Microsoft Power BI in their future and gave necessary inputs to enter into the professional life.

6. List of Winners & Runner Ups

S.No.	Team Members	Title	Dept.	Prize Won
1.	Ranjan Kumar Sah, Khudeswar Prasad Sah, Ranjan Kumar Yadav, Abhinav Kasyap	Astronomical Causes of Earth Quakes	Civil	I
2.	Chethan C Gowda, Nuthen, Sunil Kumar B	Automatic Correction System Using AI/ML	ISE	II
3.	Lakshmi R, Sanjay T, Gowtham R, Harshitha	Marine LImpiadora	ECE	III
4.	Sunil Kumar, Sai Sanskar, Vinay Krishna	Defilement of Oleum Adulteration	ECE	III
5.	Sanjay G T, Suraj Kumar, Prashanth Raj, Shiladitya Suman	Waste to Energy	CSE	Consolation

1. INTRODUCTION

Advanced IT Skill Training On Data Analytics

Mphasis Foundation and ICT Academy conducted a **Student Training Programe** on Data Analytics, jointly supported by Student Chapters of SaIT - IETE, ISTE, IEEE, CSI&EWB

CHIEF PATRONS

Dr. K. V. Prasad, Dean – Research, SaIT

Dr. M. N. Sree Rangaraju Dean – Academics, SaIT

Dr. H. G. Chandrakanth Principal, SaIT

Shri. B.N. Nagaraj, IPS (Retd.) CEO, Sambhram Group of Institutions

Mrs. Dhanya Nagaraj Director, Sambhram Group of Institutions

Dr.V. Nagaraj Chairman, Sambhram Group of Institutions

2. OBJECTIVE OF THE EVENT

The objective of an Advanced IT Skill Training on Data Analytics is to equip participants with advanced techniques and tools for analyzing data effectively. This includes mastering statistical analysis, machine learning, and data visualization, as well as practical application of software in Python. Participants will learn to solve business problems, make informed decisions, and ensure compliance with data governance and ethics. Emphasis is placed on collaboration, communication, and fostering a mindset of continuous learning to stay abreast of industry developments. Ultimately, the goal is to empower participants to drive meaningful insights and value from data within their organizations.

3. OUTCOME FOR THE EVENT

The outcomes of an Advanced IT Skill Training on Data Analytics are multifaceted. Participants develop enhanced technical proficiency in data analysis techniques and tools, including statistical methods and machine learning algorithms. They become adept at problem-solving, leveraging data-driven insights to propose effective solutions and make informed decisions. Through improved data utilization, attendees increase efficiency and productivity within their organizations. Moreover, they enhance communication and collaboration skills, ensuring effective dissemination of insights across teams. Additionally, the training instills compliance with data governance principles and ethical considerations, promoting responsible data use. Overall, participants emerge equipped to leverage data strategically, driving innovation and competitive advantage.

4. ABOUT SAMBHRAM INSTITUTE OF TECHNOLOGY

Sambhram Institute of Technology is a prominent educational institution located in Bangalore, India. Established in 2001, it is affiliated with Visvesvaraya Technological University (VTU) and accredited by the National Board of Accreditation (NBA). Sambhram Institute of Technology offers undergraduate and postgraduate programs in various fields of engineering, including Computer Science, Electronics and Communication, Mechanical, Civil, and Information Science. The institute is known for its state-of-the-art infrastructure, experienced faculty members, and commitment to providing quality education. It also emphasizes research and innovation, encouraging students to participate in projects and competitions. Sambhram Institute of Technology strives to prepare students to meet the challenges of the rapidly evolving technological landscape and excel in their chosen fields.

5. ABOUT ADVANCED IT SKILL TRAINING ON DATA ANALYTICS

In today's rapidly evolving digital landscape, the fusion of advanced IT skills with the power of data analytics is revolutionizing industries worldwide. With a strong foundation in programming languages, cloud computing, and cyber-security, coupled with expertise in data mining, machine learning, and statistical analysis, professionals are unlocking valuable insights from vast datasets to drive informed decision-making and innovation. By integrating IT prowess with data analytics techniques, individuals are not only enhancing organizational efficiency but also paving the way for transformative advancements in sectors ranging from finance and healthcare to marketing and beyond. As technology continues to evolve, the synergy between IT and data analytics will undoubtedly play a pivotal role in shaping the future of businesses and societies alike.

6. TIMING OF THE PROGRAM

Emphasis Training Schedule

College Name: sambhram institute of technology					
Course Name: data analytics					
Student Count: 60					
Accommodation Availability for trainers (Yes/No)- no					
Timings: 09.00 AM - 01.00 PM (Forenoon)					
02.00 PM – 05.00 PM (After Noon)					
Training: Monday to Sat			(Not Mention Sunday)

7. ABOUT THE PROGRAM

The Advanced IT Skills and Data Analytics Program offers a focused and intensive learning experience, blending advanced IT concepts with cutting-edge data analytics techniques. Participants explore programming languages like Python, alongside topics in software development, database management, through hands-on projects and real-world case studies, students gain proficiency in data mining, machine learning, statistical analysis, and data visualization. Graduates emerge equipped to tackle complex data challenges, make informed decisions, and pursue rewarding careers across various industries

8. AGENDA OF THE PROGRAM

- WELCOME SPEECH
- ABOUT COLLEGE AND DEPARTMENT
- ABOUT SAMBHRAM INSTITUTE OF TECHNOLOGY
- ABOUT DATA ANALYTICS
- CHAIRMAN SPEECH
- DEAN'S SPEECH
- INTRODUCTION OF GUEST SPEAKER
- GUEST SPEAKER
- HONOURING GUEST SPEAKER
- VOTE OF THANKS
- NATIONAL ANTHEM

9. DETAILED REPORT

“ADVANCED IT SKILL TRAINING ON DATA ANALYTICS”

in Association with
Mphasis foundation & ICT ACADEMY

Supported by:

Student Chapters of SaIT - IETE, ISTE, IEEE, CSI & EWB

Coordinators:

Prof. Hanumantha Rao, Asst.Professor, Dept. of CSE

Prof. Deepa S Bhat, Asst. Professor, Dept. of CSE.

Prof. Soundeshwari, Asst. Professor, Dept.ofECE.

Prof. Chaithra S V, Asst. Professor, Dept. of ISE.

Guest Speaker:

D VISHNU PRASAD

Assistant General Manager, ICT Academy.

Invited by:

Dr. Latha, HOD-ISE

Dr. John Peter T, HOD-CSE

Dr. Ravishankar. C. V, HOD-ECE

Patrons:

Dr. K. V. Prasad, Dean – Research, SaIT

Dr. M. N. Sree Rangaraju Dean – Academics, SaIT

Dr. H. G. Chandrakanth Principal, SaIT

Shri. B.N. Nagaraj, IPS (Retd.) CEO, Sambhram Group of Institutions

Mrs. Dhanya Nagaraj Director, Sambhram Group of Institutions

Dr.V. Nagaraj Chairman, Sambhram Group of Institutions

Trainer's Details - 1

1 . **Trainer Name : Ms.Anitha S**

2. **Trainer Email id : anitha24.training@gmail.com**

3. **Number : 9902633991**

4. **College Name : Sambhram Institute of Technology (Mphasis)**

5. **Course Name : Softskills**

6. **Training start date : 09.02.2022**

7. **Training End Date : 13 .02.2022**

Trainer's Details - 2

1 . **Trainer Name : Lakshmi Narayana**

2. **Trainer Email id :**

3. **Number :**

4. **College Name : Sambhram Institute of Technology (Mphasis)**

5. **Course Name : Data Analytics**

6. **Training start date : 13.02.2022**

7. **Training End Date : 29 .02.2022**

Training Guidelines to be followed:

- Students Attendance is mandatory (Min 85% individual student attendance is mandatory for Assessment and the Certification)

- Lab/ Seminar hall should be arranged.
- Student details correction or any changes will not be made after the batch launch
- Training will be provided, As per the schedule given by the college
- The program SPOC is in charge of the entire training and program
- ICT person will coordinate throughout the program
- All the Inaugural, Training & valedictory Photos should be shared in the drive link by EOD.
- Students will get the certificate and assessment login credentials with their names and email as per the registration only.
- If any changes in the schedule, Pls inform us priorly to avoid any confusion or any other issues.
- All the documents should be handed over to the Field Project Coordinator by end of the training.

Emphasis Technical training program

Training start date : 14.02.2022

Training End date : 29.02.2022

College Name :Sambhram Institute of Technology

Course Name : Data Analytics using Python
